Shock

Allies Plead Innocent

LONDON (CP) — As Russia's attitude over the American spy plane became threatening Monday, Western allies pleaded ignorance of espionage flights directed from United States bases on their soil.

Shocked reaction continued to mount in the major capitals of the world two days after the U.S. state department admitted that the U-2 jet plane shot down over Soviet territory May 1 was on a reconnaissance flight.

Among American allies, there were these developments over the plane incident:

● Norway ordered an investigation by its Washington ambassador of Russian reports that the pilot was heading for a Norwegian NATO base when he was knocked down by a Soviet rocket and captured. (See Page 16.)

● Japan said it would protest to the U.S. if U-2 type American jets based in Japan penetrated the air space of other countries.

● Britain declined official comment on the incident, although an air ministry spokesman said American U-2 planes had visited the country.

● In France, Information Minister Louis Terrenoire described the shooting down of the American plane as a "big black cloud" in the international sky.

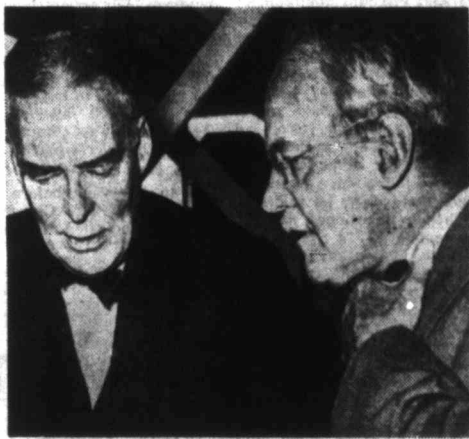

● In Ottawa, External Affairs Minister Howard Green said in the House of Commons that Canada has informed the U.S. of its concern over the incident. Green said the Canadian government considered that if such incidents were to go on one "might trigger off a nuclear war." (See Page 16.)

SEE SOMETHING FISHY

Several newspapers in Britain and on the continent claimed there was something fishy about the spy plane case. (See also Page 2.)

How, they asked, did American pilot Francis G. Powers live through a parachute drop of more than 12 miles? How were the Russians able to recover an undamaged camera and film from a plane knocked down?

"That was a rough one," U.S. espionage chief Allen Dulles (right) was heard to mutter to Secretary of State Herter as the two left a heated meeting in which they sought to explain the U.S. spy-plane incident to key members of Congress.—(AP Photofax.)

U.S. Admission

Ike Ordered Spy Flights Into Russia

By JOHN SCALI

WASHINGTON (AP)—The United States acknowledged Monday it has sent spy flights into Russia under President Eisenhower's general orders.

The statement constituted an admission that the United States has been violating international law, intruding without permission into Soviet air space, because of the cold war.

The state department did not discourage a deduction that such flights may continue until Soviet leaders open their borders to inspection.

State Secretary Christian Herter, in making the acknowledgement, defended intelligence flights by unarmed civilian planes as necessary to guard the non-Communist world against surprise Soviet attack.

In a special statement, Herter suggested that next week's summit conference attempt to agree on safeguards which would end the threat that a country could suddenly launch a nuclear onslaught against another.

With the approval of President Eisenhower, Herter admitted that American planes have carried out "extensive aerial surveillance" of Communist territory under directives issued by the president.

"Specific missions of these unarmed civilian aircraft have not been subject to presidential authorization," Herter said. After Soviet Premier Nikita Khrushchev reported the capture of a 30-year-old American flier deep inside Russia, the state department acknowledged an intelligence flight

'Those Who Lease Acting Against Us'

MOSCOW (Reuters)—Nikita Khrushchev warned Western ambassadors Monday that if aerial provocations continue against Russia she will shoot down the planes and aim rockets at their bases.

The Soviet premier spoke to ambassadors at a Czech Embassy reception after he made a speech promising immediate retaliation against countries allowing their territory to be used by American planes for flights over the Soviet Union.

DEADLY SERIOUS

Western reporters were not invited to the reception but diplomats said Khrushchev was in a deadly serious mood. Immediately after his speech he asked for the Pakistan and Norwegian representatives to question them about an American reconnaissance plane shot down over Russia—said by Khrushchev to be flying from Pakistan to Norway over Russia.

BLUNT WARNING

Khrushchev served this blunt warning on American allies: "Those who lease your territory are acting against us from your territory. Their country is far away from us but yours is close. Therefore, while making sure of our distant targets, we shall also keep our sights on the nearer targets. Let them draw the necessary conclusions from this."

SECOND WARNING

Later the Soviet premier told the ambassadors—repeating a warning made earlier in the day by Soviet Defence Minister Rodion Malinovsky—that if provocations continue the Soviet Union will shoot down the

planes and aim rockets at bases in the offending countries.

Khrushchev coupled his warning with another declaration that he did not want to inflame passions.

SEEKS GOOD WILL

"Let us not draw any conclusions which might aggravate relations between countries, conclusions which might in the future prevent us from creating good relations, even with the United States."

Khrushchev reviewed the shooting down May 1 of a U.S. plane over central Russia and claimed that two days after Gen. Nathan Twining, then U.S. Air Force chief of staff, was wounded and died in Moscow he sent a high-altitude flight over Russia.

Twining visited Moscow in June, 1956, to attend a Soviet air display.

ONLY AN ANIMAL

This plane, the premier said, went as far as Kiev.

"What were we to do? Should we protest? I suggested that we should not. Only an animal can behave like Twining did who does its unpleasant business where it eats."

Khrushchev said the shooting down of the plane Sunday put the U.S. state department in a situation where "they cannot admit and cannot deny it." "If anyone is preparing to fly over our territory to reconnoitre objectives and find out state secrets we shall simply shoot these planes down."

REPRISALS

"Further, if such flights are repeated, we shall take corresponding reprisal action."

A similar warning to countries which allow United States planes to use their territory for aerial espionage was given by Malinovsky. He spoke before 10,000 persons, including Premier Khrushchev, at a meeting in Moscow celebrating the 15th anniversary of victory over Germany.

"NO GUATEMALA"

Malinovsky warned the United States: "We are no Guatemala, no Turkey, no Pakistan, no South Korea."

"We have shot down and will shoot down any intruder who might dare to violate our air space and will take all measures which we find necessary for the defence of the inviolability of our frontiers."

"THINK WELL"

He also warned countries "who are participating in this evil doing" to "think well before it is too late."

"Our technical resources now are so developed that we can know without any error from which base these violators fly and we have the right to take any measures in such cases against bases and airfields and can deal them such a blow that nothing will be left of them."

The marshal said the "piratical incursion" by U.S. military planes of Soviet air space once again exposed "the imperialists as rabid enemies of peace and the security of peoples."

Father 'Quits' For Five Hours

Colonist reporter Terry Hammond, along with scores of other Victorians, is trying to kick the cigaret habit with the help of the Colonist's recent series of articles by Arthur King Hammond, a three-pack-a-day "addict," describes another step in his withdrawal.

By TERRY HAMMOND

Q-Day minus 11.

Yesterday, as a form of self-imposed penalty for having forgotten not to smoke before breakfast, I stopped smoking for five hours in the afternoon.

I really could have quit completely right then but I felt it would be letting down the

Cigaret Addict's Diary

readers of this series (both of them).

When I resumed smoking again I puffed my way through 11 cigarets in rapid succession, only two more than I would have smoked during the previous five hours if I hadn't quit.

During those five smokeless hours I made a point of avoiding other members of the family as much as possible, and as a result I am happy to report that they survived with only superficial cuts and abrasions.

FITFUL SIGHT

The looks of joy, mingled with relief, which they gave me when I finally broke my little fast were frankly pitiful to behold.

My eight-year-old daughter probably summed up the collective reaction best when she turned to her two-year-old sister and said, "you can breathe again kid, the old man's back on the weed."

GOOD OLD "X"

Of course one of the things which made it possible for me to quit for five hours is that this is the week we would-be quitters consume the brand of cigarets we like least.

My "Brand X" is loosely packed with a dark, granular substance which burns like

cordite. You can actually hear it burn.

Several people have been prompted to ask me if I was carrying a short-fused bomb in my pocket.

This dark substance is not tobacco at all, I suspect, but the scrapings from the ground around the tobacco plant.

TASTE TELLS

My discriminating palate detects the aroma of codfish heads, 4-126 and 2-4-D. And if those Ontario tobacco farmers want to use a detergent motor oil in their tractors that is their business, but if they read their owner's manual they will see that it should be changed at least every 50 hours.

Rising River Drives 600 from Homes

Early Bird Potted

PORT MANN, B.C. (CP)—Tractor-operator Ralph Melenchuk told police he was punched in the face Monday by one of three men who objected to the noise of his machine.

Melenchuk, 30, said he was working on the Port Mann freeway base at 4 a.m. when the incident occurred.

TIMMINS, Ont. (CP)—Teams of volunteers with trucks and tractors swept through adjacent Mountjoy Township Monday and evacuated nearly 600 persons from homes in the path of the flooding Mattagami River.

The rain-swollen river, rising at the rate of an inch an hour, is spilling over the straining Wawatlin Falls dam which holds back a 27-mile-long man-made lake.

World Police Force Only Answer For Spy 'Nonsense,' Says Chisholm

Formation of a world police force and institution of world law would end the sort of "nonsense" that sent a United States spy plane over Russia, Dr. Brock Chisholm, former head of the World Health Organization, said last night.

Such obvious attempts at spying are undoubtedly irritating and indicate a lack of trust," he said. "We are going to have to learn to trust each other."

"It is unfortunate it happened at this time, just before the coming summit conference," he added.

"A world police force is the only answer," he said. "There will be problems as long as we depend on the ridiculous and entirely mythical ability of our armed forces to protect us."

Up to Smoker

Cigaret Ban Refused In U.S.

WASHINGTON (UPI)—Health Secretary Flemming yesterday snuffed out a suggestion that the government prohibit the sale of cigarets on grounds they may cause cancer.

As he sees it, Flemming said, his responsibility is to make public all the facts about cigaret smoking and cancer. The individual must decide for himself whether to smoke, he added.

Nikita Has Cards

LONDON (UPI) — High diplomatic sources said Monday the West must brace at the summit to meet supremely confident Nikita S. Khrushchev ready to exploit the propaganda advantage derived from the U.S. spy plane incident.

They predicted he would be tougher than ever in his talks with President Eisenhower, Prime Minister Macmillan and President de Gaulle which opens in Paris next Monday.

HIGHLY-SECRET

Macmillan and his foreign minister, Selwyn Lloyd, met Monday for 20 minutes and undoubtedly discussed the incident. Commonwealth prime ministers, meeting in highly

Tough Time At Summit

secret session to discuss South Africa's race segregation policies, also took up the plane issue.

Officially, European allies were silent; privately, they expressed pessimism.

HARDEN STAND

Soviet affairs experts here said the Russians will use the plane incident as a pretext to harden their stand against

Western-demanded controls in any disarmament arrangements.

The Soviet Union long has resisted Western demands for strict controls on grounds the West wants "legalized means of espionage."

The Russians also can be expected to resist even more strongly any open-sky inspection plan and to intensify their campaign against U.S. bases in Europe and the Near East.

The latest uproar will make no difference to the prepared Western plans for the conference.

STANDS FIRM

The West stands firm on Germany and West Berlin, wants to break the deadlock in disarmament, negotiations and wants to probe long-term prospects for a general relaxation of international tension.

But allied officials expect the summit atmosphere to be different from what the West had anticipated and prepared for in past months.

Allies 'Innocent'

Continued from Page 1
down from a great height by a rocket? Premier Khrushchev said the plane was knocked down from a height of 20,000 metres, about 63,000 feet.

EASY FOR REDS

Britain's first lord of the admiralty, Charles Ian Orr-Ewing, said at a luncheon:

"The U.S.S.R. must be thankful for the many hundreds of Russian staff it maintains in the free world who are able to gather details of the West's military installations by merely getting into their cars and using binoculars and cameras."

ADVISERS EXCLUDED

Prime Minister Macmillan conferred with Foreign Secretary Selwyn Lloyd on the implications of the plane case. Later the Commonwealth prime ministers spent two

hours in a secret session at 10 Downing Street. They sent their advisers out of the room to discuss the plane incident in confidence.

Moscow Radio avoided tying the plane incident to the summit conference. And it implied the U.S. military, not Eisenhower, was to blame. It warned that such incidents could involve the world "in the greatest calamity."

LIKE BLAMED

But Red China, the Soviet Union's ally, charged that the incident was evidence the United States was trying to torpedo the summit conference and refused to spare Eisenhower.

The responsible officials of the United States, headed by Eisenhower, have brought the war machine into full operation," Radio Peking declared.

Wharf Accident Kills Vancouver Doctor

VANCOUVER (CP) — Dr. Peter Spohn, about 45, Vancouver pediatrician, drowned Monday when he fell off a wharf at nearby Paisley Island, in Howe Sound, where he had spent the weekend working on his summer home.

A family friend said Dr. Spohn apparently fell off a wharf at the island and struck his head on a log in the water. The body was recovered a short time later.

Name Your Poison!

ST. PAUL, Minn. (UPI) — When a transient enters the Union Gospel Mission here, he leaves at the door any alcoholic beverages he's carrying.

Among concoctions collected, nearly all poisonous, are:

Green river, so named because it turns the lips green; after-shave lotion fortified with paint thinner.

Block and tackle: paint thinner mixed with denatured alcohol and canned heat.

Pink lady: canned heat "cut" with water. Add benzodrine or alcohol and it becomes a "snaky pete."

Rubbydub: the skid row name for rubbing alcohol. Kerosene and buttermilk, which only a few dare tackle. It almost completely wipes out the mind of its victim.

Same Wages Throughout Canada Objective of Shipyard Workers

MONCTON, N.B. (CP) — Eastern shipyard unions adopted national standardization of wages and working conditions as a long-term objective during a weekend meeting here.

A statement issued following the meeting of 60 delegates representing 10,000 union employees of about a dozen shipyards in the Maritimes and Quebec said the objective could be more easily attained by "having the industry brought under the federal labor code rather than provincial legislation."

The immediate objective was to lay down a regional policy of standardization during negotiations with east coast marine establishments, scheduled to open this year.

The statement said delegates were concerned with the wide differential between wages paid east coast shipyard workers and those on the west coast. "At the end of the war the wage differential was 10 cents an hour. Now it has widened to approximately 75 cents."

UN First Says Chou

PHNOMPENH, Cambodia (Reuters) — Premier Chou En-lai said Monday Red China would refuse to attend any world conference on disarmament until she is admitted to the UN.

He also forecast he might one day go to the U.S.

Russia planned a trial shipment of 1,000,000 feet of Russian softwoods to Australia in April, 1960.

Use the Naran Plan to Lose Ugly Fat

It's simple how quickly one may lose pounds of unsightly fat right in your own home. Make this home recipe yourself. It's easy, no trouble at all and costs little. Just go to your drug store and ask for four ounces of Naran Concentrate. Pour this into a pint bottle and add enough grapefruit juice to fill the bottle. Take two tablespoons full a day as needed and follow the Naran Plan.

If your first purchase does not show you a simple easy way to

lose bulky fat and help regain slender more graceful curves; if reducible pounds and inches of excess fat don't disappear from neck, chin, arms, abdomen, hips, calves and ankles just return the empty bottle for your money back. Follow this easy way endorsed by many who have tried this plan and help bring back alluring curves and graceful slenderness. Note how quickly bloat disappears—how much better you feel. More alive, youthful appearing and active. ADVT.

Today, John McMurray and Mary his wife travel to town together. For him the journey to the office is an every day routine. For Mary it's something special — an exciting early start to a day's shopping. For both a busy day lies ahead . . . one during which they'll make good use of the services their bank provides.

Their Personal Chequing Account at The Canadian Bank of Commerce will make settling bills easy and economical for Mary. And when John drops in to make a deposit in their Savings Account, he'll be greeted with the friendliness and courtesy that makes a visit to the Bank of Commerce a pleasure.

A Complex Situation

A FEW years ago Saanich initiated a main sewer project to overcome the difficulties it was encountering in the heavily settled part of the municipality, more or less along the line of its common border with Victoria. The undertaking proved expensive, and it was decided to proceed by stages towards completion of the program. According to Reeve Chatterton, an unsatisfactory condition has been growing in other sections of the municipality with regard to the use of septic tanks in areas which subsequently have proved unsuitable for them.

From a health standpoint this could become a serious matter. The municipality says that warnings have been given to property owners in certain instances, but that abuse of the privilege still is taking place. The reeve threatens to apply municipal authority to install sewers in the affected areas, and charge back the cost to the property owners on the local improvement principle. For Saanich, however, the situation may not be as simple as that. The municipality issued the building permits

in the first instance, or no dwellings could have been erected in the areas affected. Septic tanks cannot be installed by anyone, but must have specific authority from the municipality itself. In this sense Saanich is as closely concerned in the outcome as individual property owners, or the land development syndicates which inspired much of this new construction.

The reeve is right in pointing out the menace which abuse of septic tank use could quickly build up. His warning may be intended as a precautionary one to those who have not heeded earlier remonstrance. On the other hand, not all of the obligation would seem to rest on one side. The municipality in one sense has been a party to the chain development which has spotted housing settlement intensively in areas where sewers do not at present exist.

No doubt consultation and negotiation will suggest some way of solving the immediate problem, short of Saanich undertaking to build sewers hurriedly, outside of its own heavily committed main program.

Blowing the Gaff

ESPIONAGE under its more polite name of military intelligence is an old story, and has been the theme of some diverting spy novels. In older days a spy might be caught, disowned as was customary by his government, and suffer whatever penalty was meted. The world at large heard little about it. Now however an intelligence agent becomes fine propaganda for his captors.

This is particularly so where aircraft are involved, and Premier Khrushchev is in the happy position of blowing the gaff about the U.S. jet plane which Washington said was merely a meteorological aircraft which had gone accidentally astray. Instead it was a reconnaissance plane which had in fact been spying on Soviet Russia from above, and Mr. Khrushchev has the plane, its contents and the pilot to prove it. In a humiliating backtrack Washington has had to admit the facts.

This will not be the first time that a U.S. reconnaissance plane has been caught to spy out Soviet territory, and Soviet Russia has been engaged in equal aerial intelligence work. This

is a regular part of military intelligence on both sides. America perhaps has the advantage since Soviet planes cannot reach the U.S. borders, but assuredly European defences are open to Soviet surveillance from high-level aircraft.

Where Washington blundered was in stating that the shot-down plane was an innocent weather aircraft, when obviously it had no such information. Apparently Washington knew nothing about the reconnaissance at all, which is not surprising but should have taught it caution. Military operations are routine and every flight cannot be cleared specifically with the state department. There must be general policy directions governing military aircraft, however, and it seems strange these should permit such a flight on the eve of the summit meeting.

As it is Washington deceived its own friends with its first, wrongful explanation and created a fine propaganda situation for Mr. Khrushchev to play with. He will make the most of it, especially since he has the goods to put on view.

Tuition at Stake

ONE feels that when employers and others in the Greater Victoria area appreciate the difficulty encountered by numbers of students wishing to work through their summer holidays to earn funds to continue tuition at college a concerted effort will be made to improve what is probably a temporary lull in employment openings. Of a total of 450 men and women students who must depend on summer work this year to earn the fees for next term approximately half, 217, have been placed. There remain 233 other students—150 men and 83 women—who still are in search of vacation jobs with the same steady purpose in mind. Their applications are on file with the Employment Service of Canada.

The situation is one common to most areas across the nation; in part from seasonal factors, but also this year by reason of abnormal weather and slower opening of the number of occasional jobs that usually accrue in the summer months. For students who are working their way through university on their own resources a summer job is essential as a stepping stone towards that ambition. Those who are resident here do not have to earn the same amount of money from their vacation jobs as students from other parts of B.C. enrolled here who also must keep themselves meanwhile. Both categories however are on strictly limited budgets, and failure of vacation work would be a serious thing for them. It could affect their future and their lives.

Interpreting the News

Security Treaty Debated

By PHIL NEWSON
UPI Foreign Editor

ANOTHER ally of the United States is being torn by a bitter political debate. Fortunately, this one so far is non-violent and bears no resemblance to the upheaval which toppled the Syngman Rhee regime in Korea nor to anti-government student rioting in Turkey.

It concerns the U.S.-Japan security treaty which Prime Minister Nobusuke Kishi signed last Jan. 19 in Washington, but which still must be ratified by the Japanese parliament. Its opponents hope to hold off ratification until after President Eisenhower's scheduled visit in June, and then to make it the subject of giant protest demonstrations.

The debate has raged for weeks, and Kishi still hopes to have the treaty ratified well in advance of the Eisenhower visit. If the going gets too rough, he might even take it to the people in a snap election.

Opposition to the treaty springs from at least three sources.

There remains in Japan a considerable reservoir of anti-U.S. feeling. There also is nostalgia for the "good old days" when Japan had considerable trade with

what now is Red China. And there is the internal political angle wherein Kishi's opponents, both inside and outside his own party, hope to embarrass him to the point they could throw his office up for grabs among themselves.

Lending aid and comfort to the treaty's opponents are the propaganda machines of both Red China and the Soviet Union.

The new treaty gives Japan joint responsibility for its own defence. It gives the United States rights to military bases in Japan, but it also gives Japan the right to "prior consultation" on the movement of U.S. forces and the weapons they can use.

Kishi and Eisenhower have agreed that the "prior consultation" clause gives Japan a virtual veto over the movement of Japan-based U.S. forces.

It almost certainly means Japan would prohibit any introduction of modern nuclear weapons in Japan. It also makes it questionable whether Japan would agree to the dispatch of U.S. forces to the defence of the Nationalist Chinese offshore islands of Quemoy and Matsu.

Thinking Aloud

... of shoes—and ships—and seal wax—of cabbages and kings."

By TOM TAYLOR

MUCH to my surprise I note that the local tourist group is advertising for a photogenic male kiltie to greet visitors with the bagpipe as they come ashore onto this little bit of Old England. The anomaly of this seems to escape these promoters, unless the idiom has been changed to a little bit of Ye Olde Britain.

Perhaps they have been reading the name on a certain commemorative stone at Clover Point.

I will say for these blokes however that they have persistence and if Victoria isn't draped in crumpets and crinolines it certainly won't be their fault. But it does make me smile sometimes. All is not paradise now across the Atlantic, you know.

Just for instance there was another, recent, denigration of our row housing, as though some peculiarity had fashioned itself on our builders. I would like someone to name a city where new houses are not put up in rows. They might be ringed in circles, or lined into quadrants or any other geometrical design but assuredly they go up in rows.

And unless my eyes betrayed me two years ago when visiting Ye Olde Britain—bless her nevertheless—the new row housing over there is much more uniform and much less attractive than its equivalent here.

This obsession that what eventuates here must of necessity be of lesser virtue than its counterpart elsewhere—has me stumped. Every building in a foreign land is not an architectural masterpiece.

By no means indeed. I rather think distance is lending an enchantment dissolvable on close inspection.

However, let the male piper be found, if he has the correct photogenic knees. The incongruity has been long founded by the girl piper who hitherto has welcomed U.S. visitors to this little bit of Ye Olde Britain, and admittedly much to their delight.

It seems like ingratitude to fire her, however.

I cannot vouch for it personally, being much too polite to seek a close-up of feminine knees, especially in public, but I wouldn't hesitate to bet that hers are much more photogenic than any male knees you might uncover. They're likely to have dimples, for instance, and in all my born days I never saw masculine dimples in just this particular part of the human figure.

In fact it's astonishing that the hunt should be for a knobby-kneed piper. Why wouldn't a nice smooth-kneed one do? It is an old assumption that to be a true kiltie one must have lumpy joints, I know, although this rather maligns quite a lot of decent chaps and I have often wondered as to its verity.

However, thinking things over and recalling the male knees I have observed, including my own, perhaps the least said about male knees is better. Watch a soccer, basketball or lacrosse game and you'll appreciate what I mean.

By and large the one thing certain, perhaps, is that they are not exactly a photographer's dream.

Nevertheless it happens that I do know one fine masculine fellow in town who wears a kilt to the manner born and whose symmetry and smoothness of limb did Hollywood know of it would assuredly land him as the hero of a Highland film. When he is dressed up he is as superb a Highlander as ever one did see.

Wee Georgie couldn't hold a candle to him.

But since he doesn't play the bagpipe and doesn't have knobby knees I won't tell Mr. Lane his name. Sorry, Sam.

Reports from Ottawa

A CABINET minister wept in the House of Commons last Thursday because a political opponent had died.

The tears of Immigration Minister Ellen Fairclough were a measure of the affection in which Bill Houck, Liberal MP for Niagara Falls, was held by his colleagues of all parties.

Not in my memory—and I have been in Ottawa long enough to have reported nearly 30 per cent of all the parliaments since Confederation—has a private, back-bench MP received such an impressive eulogy as that delivered in the House on Thursday.

They are burying Bill Houck at Niagara Falls this afternoon. But no matter how long the cortege, how numerous the mourners, this demonstration of mass sadness will not surpass the sadness that suffused a quiet House of Commons when, for 25 minutes, leader after leader and member after member rose and told what the loss of this gentle, kindly, intelligent and hard-working MP meant to him, to his party, to Parliament and to the country.

I have listened to many eulogies over the years. I have never listened to one that I felt was so utterly sincere.

Liberal leader Pearson might have been carving Bill Houck's epitaph, when he said that "Few men have had more friends, and no man has deserved them more." The friendship that even political foes bore for this man is one of the more remarkable situations that I have witnessed here over the years. I had thought of doing a column on it. In part, and belatedly, I do so now.

The Packback

Knowing Who Knows

OF GREGORY CLARK

A NEWSPAPER editor of my acquaintance was accosted on the street the other day by one of those street boys, the late Pro Bono Publico type, who said:

"You think you know everything, don't you?"

"No," replied the editor, "it is not my business to know everything. But it is my business to know who knows."

That was about as compact a definition of the function of a newspaper as I have heard. There was a time, perhaps even early within this century, that a great newspaper editor might know everything that was knowable or worth knowing. But there has been such a tremendous

explosion of human energy in the past fifty years—a period roughly the working life-time of two successive editors of a big newspaper—an explosion in every direction, political, social, scientific and economic, that it would be utterly beyond the capacity of a superman to be properly aware of, let alone know the facts of, all the activities on this planet that deserve to be brought to the attention of the public.

Thus the greatest editors today are men who study to know who knows. They build up staffs of sub-editors and reporters whose chief function is to explore and discover those who know, in the manifold fields of human enterprise.

The modern newspaper searches for the searchers.

Bill Houck achieved a success in politics that cannot be measured in terms of high office achieved or notable speeches made or important legislation fathered. He never became a premier or prime minister or party leader—he never aspired to—but when the chips are cashed, few of these can match the sterling worth of this man whose career in Ottawa was in the back benches.

His is a record of solid service to those who elected him; his merit recognized on all sides, an example to all those who contemplate careers as elected servants of the people.

Politics did not bring him wealth of possessions. His record is clear of the taints of corruption, of opportunism, of self-interest.

But what value money, or vanity, or headlines on an occasion like that at Niagara Falls? Better by far that people say, as they say today of Bill Houck, MP, that "Here was a man. In our lifetimes his like may not come this way again."

'For a' That' in Chinese

(From The Edinburgh Scotsman)

This is a very small and very elite bunch. What quality unites Shakespeare, Burns and Byron—two of them Scots.

The Germans consider Shakespeare a German born in the wrong country. In Burns' case, his "democratic" message is undoubtedly the main attraction; in Shakespeare's case the universal impact of the actual "stories" of the plays; in Byron's probably his romantic-revolutionary ardour and the glamor of his life story.

The Chinese were so grateful for the material put at their disposal for the Burns bicentenary celebrations in Peking and elsewhere that they have replied in kind, sort of.

At the National Library of Scotland, George IV. Bridge, Edinburgh, there is a display cabinet in the Exhibition Hall where you may see some books of Chinese architecture and artifacts—pottery figures and so on—excavated during "the laying of

This is Germany

Shirts Are Expendable

By ERNEST WAENGLER

FRANKFURT—West German women, who outnumber men by no less than 12 per cent, are to be given better opportunities in the civil service.

Of the 630,000 federal civil servants, less than one-sixth are women. Nearly all these are typists and filing clerks. Only 1,500 are listed as being "in the higher ranks."

The Ministry of the Interior has now recommended that civil service opportunities for women should be made more attractive.

★ ★ ★

The presidents of West German universities discussed at a recent conference the problem of starting a "University of Europe" at which students from all European countries would have equal opportunities and which would confer degrees recognized in all Europe.

The conference decided not to endorse the foundation of a complete University of Europe as such but to encourage specialized institutes of all-European character. It also advocated agreements that would give students full freedom in studying at any European university of their choice.

★ ★ ★

Germany's first drive-in theatre is being opened in a forest clearing near Frankfurt. So far in Europe, only Rome and Madrid have had drive-in movies.

The Frankfurt drive-in has space for 1,100 cars, each serviced by a small individual speaker and devices for piping heat into the cars during the chilly season.

★ ★ ★

Busy German housewives are welcoming the news that a disposable men's shirt is being brought on the market to do away with the washing and ironing chores.

It is made of a synthetic paper of great strength and fabric-like appearance which is also suitable for dyeing and printing of patterns. It is also said to be dirt repellent and moisture resistant and can be equally used for women's blouses, curtains, table cloths, etc.

When the items made of this "paper-cloth" get dirty, they are simply discarded.

★ ★ ★

German children, once sternly kept in place by their elders, are now permitted to influence their parents' decisions in clothing purchases.

A West German public opinion institute has advised clothing manufacturers and stores of a recent survey which showed that 53 per cent of mothers and 62 per cent of even more doting fathers let children decide about their own clothes.

In half the cases this even applies to children under the age of nine.

★ ★ ★

Though Germans consider themselves the hardest workers in Europe, they don't necessarily want to work all the time.

The Social Democrat party is currently supporting a demand by unions for a legal minimum vacation of 18 working days for every German employee.

At present, "only" 40 per cent of German workers enjoy an annual paid vacation of three weeks.

Workers under the age of 18 are even guaranteed a four-week annual holiday.

★ ★ ★

Between 4 and 10 per cent of the Germans are anti-semites, reports the public opinion institute EMNID as a result of a recently conducted poll.

On the other hand, 79 per cent of those questioned voiced strong opposition to anti-semitism and described the swastika-painting actions as disgraceful. Only one per cent approved swastika-painting.

German newspapers describe the results of the poll as "nothing to be proud of, though not really alarming."

(Copyright, T.N.S.)

Letters to the Editor

Wants a Mountie

I read that the Victoria Chamber of Commerce is looking for a knobby-kneed Scotsman to greet the tourists as they come off the boat. Now I am very fond of Scotch people but we are living in Canada not Scotland, and as my ancestors go back before Confederation, I would like to see someone typical of Canada at the boat.

To my mind nothing would be better than having one or two of our fine mounted policemen standing at the dock or, even mounted on their fine horses in view of every one, say for July and August anyway.

Tourists are generally in a hurry to get off the boat, but they could not mistake seeing the red-coated mounties.

OLIVE De V. WILSON.
3095 Harriet Road.

Chessman Case

The one thing which comes out most clearly in the newspapers' coverage of the Chessman case is society's reason for imposing the death penalty. It is the theme of your editorial of a few days ago and can be reduced to one word: revenge.

Some day, perhaps, we shall look at ourselves and thank God for the combination of circumstances and opportunities which formed us into "decent citizens." Maybe then we'll stop kicking those who are less fortunate and try to help them.

GRAHAM ELLISTON.
1777 Hollywood Crescent.

Pansy Attitude

I am completely fed up listening to and reading about these people who are emotionally disturbed about "poor Mr. Chessman."

How about the "poor young lady" in the mental home, a young life torn to shreds, and of the other young women involved? How about their parents who carry this horrible burden within their families and circle of relatives?

Instead of abolishing capital punishment our laws should become much more strict; along with the laws within our penal institutions, etc.

There are thousands of people supposedly "sane" walking about the streets of "skidrow" in the world who never did or never intend to do an honest day's work in their life; and who live an animal's life of perversion, etc., and would rob and kill for a living were it not for the police. Welfare, ridiculously enough, is feeding these "half animals" on our increasing tax dollars, where the rock-ple and hard work in the prisons would force them to become working decent men, instead of the lazy routine they have now.

Capital punishment must stay; and tougher punishment meted out for offenders of the law, than is now given. Shorter jail terms possibly in some cases, but a tough and hard jail term; not the pansy "Sunday school" attitude given in many or most cases.

H. BITTERMAN.
1148 Oscar Street.

ERIC LOUW

Nigeria Next To Join

LONDON (UPI)—Conferring prime ministers Monday gave the green light for Nigeria's membership in the Commonwealth after due constitutional processes are completed by Oct. 1.

Today ministers are expected to approve a brief communique taking note of Ghana's intention to become a republic. India and Pakistan already are republics and Ceylon has signified her intention of becoming one, so the Commonwealth will soon be almost made up of republics.

The conference is scheduled to end Friday. Monday afternoon's session was cancelled so ministers could attend a rain-dampened garden party, given by the Queen at Buckingham Palace.

Prime Minister Diefenbaker, who is trying to moderate the tone of discussions over South Africa, met Louw Sunday and again emphasized how much Canada detests racial discrimination.

Apartheid Crisis

Premiers 'Squabble' in Secret

Unbending Louw Fails In Censure Demand

LONDON (UPI)—The Commonwealth prime ministers yesterday discussed South Africa's racial problems and informed sources said they failed to resolve the crisis that is threatening the whole conference.

All 11 members of the multi-racial Commonwealth held private talks in the cabinet room of No. 10 Downing Street. Their advisers were excluded.

UNBENDING

At issue is the unbending stand being taken by South African Minister for External Affairs Eric Louw. His comments, both private and public, have indicated there will be absolutely no change in his government's apartheid practice.

Conference sources said the talks did not go too well.

'SQUABBLE'

The London Evening Standard said a "sensational squabble" broke out during the meeting. The paper said it arose from Louw's defence of apartheid, and the subsequent blast at him by Malayan Premier Tunku Abdul Rahman.

Louw, the paper said, opened up with an attack on Rahman, and asked that the conference censure the Malayan leader.

According to the report, Louw received no support at all from the other ministers, and in fact they criticized him for the strong stand on apartheid he took at his press conference last week.

Because of the apartheid argument, Ghana announced Monday it has cancelled an invitation to Louw to visit Ghana, an invitation Louw had already accepted.

The settlement which became the city of Montreal was known in 1642 as Ville Marie de Montreal.

Why Do Canadians Buy So Many Imported Cars?

Pioneer V Sends Word to Earth From 8,000,000 Miles Away

JODRELL BANK, England (AP)—The U.S. Pioneer V space rocket sent scientific data to earth Sunday from 8,000,000 miles out in space.

It was the longest-ranging conversation in history.

Pioneer's transmitter was triggered by a signal from the giant British radio telescope at Jodrell Bank. Ninety seconds later the satellite's reply started coming in. It included data on cosmic radiation, charged particle energies, magnetic field phenomena and solar flares.

The information was relayed to the headquarters of

the U.S. National Aeronautics and Space Administration in Los Angeles.

The radio signal from earth switched on a 150-watt transmitter which had been silent since Pioneer's March 11 launching from Cape Canaveral.

Until Sunday, a five-watt transmitter had sent back a wealth of information but the smaller radio's signals have become harder and harder to pick up.

The space administration said the new radio provided "a good, clear transmission, lasting about a minute and a

half." But because it drains the space sphere's batteries so much faster, it will be used only sparingly.

NASA officials declined to predict how long the more powerful radio will work. They said some mechanical troubles have turned up which could cause increasing difficulties.

You're the driver in Plymouth's unique new gas economy test

UNIQUE ECONOMY METER shows exactly how many miles you get to a gallon of gas. You prove gas economy for yourself.

You'll discover great gas mileage in a PLYMOUTH PROVE-IT-YOURSELF ECONOMY DRIVE. Takes only minutes; lets you prove for yourself the economy of Plymouth's new 30-D Economy Six.

No special test conditions here—just you at the wheel of a regular 1960 Plymouth. A full-size Plymouth, with all its comfort, all its performance. Here's how to take this convincing test: Go to your dealer's and slip behind the wheel of a Plymouth. You'll see Plymouth's special ECONOMY METER mounted on one side. A flick of a control powers the Solid Plymouth with the gas in the jar.

Drive this roomy Plymouth in your usual way

A quality product of Chrysler Corporation engineering

and just watch how slowly the gas level goes down. Compare the tiny amount of gas used with the mileage figures on the speedometer. In this way, you see for yourself exactly how many miles you got on just a small amount of fuel!

You do the driving. You check the mileage. You prove Plymouth's economy yourself. What could be more fair?

Try it at your Plymouth dealer's!

New Plymouth 30-D Economy Six is inclined 30 degrees... delivers top performance on less gas. Prove it yourself today!

House Bars Bare Knees

OTTAWA (UPI)—Public galleries in the House of Commons were ruled out of bounds Monday for bare-kneed tourists—male and female—by Speaker Roland Michener. Previously, persons wearing shorts were seated in the back rows.

Woman Nearly Itches To Death

"I nearly itched to death for 14 years. Then I found a new wonder cream. Now I'm happy," says Mrs. D. Ward of L.A. Here's blessed relief from tortures of vaginal itch, mental itch, chafing, rash and eczema with an amazing new scientific formula called LAXACANE. This soothing, stain-free medicated cream kills harmful bacteria while it soothes raw, irritated and inflamed skin tissue. Stops itching—in seconds! Don't suffer another minute. Get LAXACANE today at all drug stores.

OTTAWA — The Canadian government received no prior information on recent U.S. congressional recommendations to cut spending on the Bomarc-B anti-aircraft missile, says Defence Minister Pearkes. No information passed between the government and the U.S. House of Representatives appropriations committee that proposed the reduction, he told the Commons.

Mr. Pearkes spoke when questioned about statements following a weekend visit to Boston by Canadian legislators and businessmen who talked unofficially with U.S. counterparts on international relations.

Dissociating the government from the Boston conference, which said there should have

Ottawa Roundup

been greater consultation before the Bomarc cuts, External Affairs Minister Green said the Canadian delegation was "in no sense official."

When Paul Martin (L, Essex East) asked why only Tory MPs attended, Mr. Pearkes replied, "I didn't appoint them," and Vancouver-Centre Tory Douglas Jung said a single Liberal MP-delegate couldn't go at the last minute.

"Reports" of a possible merger of the Toronto-Dominion Bank and the Bank of Nova Scotia were mentioned by H. W. Herridge (CCF, Kootenay West), who asked if the justice department's anti-combines branch would investigate. Justice Minister Fulton replied that he has no knowledge of any pending merger.

In Toronto, A. C. Ashforth, president of the Toronto-Dominion Bank, said "there is nothing in the report," and F. W. Nicks, president of the Bank of Nova Scotia, said "There are no discussions going on between the two banks."

The Commons unanimously approved a government motion to set up a select committee to examine the rules of the House, with a view to increasing efficiency and speeding up business.

Some aspects of the rules to be given special attention will be closure rules, enforcement of the ban against reading speeches and introduction of a mechanical method of voting.

Youth Admits Theft Try

One of three youths who grabbed at a woman's purse on Michigan Street April 24 was remanded for sentence in city police court yesterday when he pleaded guilty to assault with intent to rob.

Magistrate William Ostler said he would await a probation report before sentencing 18-year-old William Pepper, 808 Balmoral.

Police said Pepper was fleeing from the scene of an assault on Miss Rose McKinnon, 241 Belleville, when he was apprehended, and at first denied taking part in the assault.

Southwold in Suffolk, England, was noted for its herring fisheries as early as the 11th century.

Blackout Net Result

PORT HOPE, Ont. (CP)—A young fisherman fished a long, overhand cast and for two hours this town, 55 miles east of Toronto, lay in darkness.

The Ontario Hydro-Electric Power Commission explained that the unnamed fisherman's nylon line became entangled in a 4,000-volt line near a bridge. The youngster kept hauling on it to free it but instead he drew three of the power lines together. Fuses blew for miles around. The boy was insulated by his rubber boots.

SUCCESS

is confidence in yourself... your future!

HAVE YOU ENOUGH CONFIDENCE? Look at any successful man. He knows what he's doing... knows where he's going. He's not afraid of tough jobs, tough decisions. Think! Do you have this kind of confidence?

No man can have real confidence unless he has security for himself, his family, his future. Successful men realize this early in life. They create and protect this security with LIFE INSURANCE. They know that whatever happens, their financial future and the future of their families is unconditionally guaranteed. This is a good feeling to have... a feeling that gives a man the kind of confidence that breeds success.

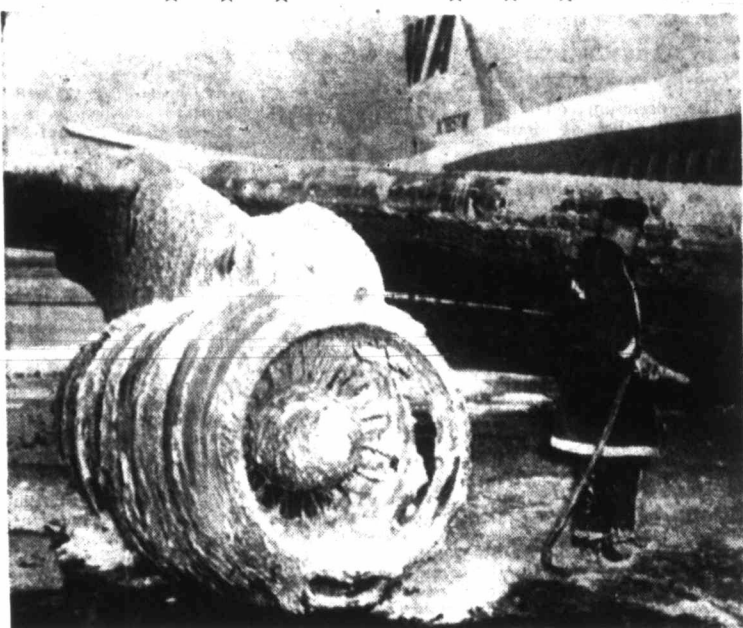

How about you? If you don't have enough confidence... maybe it's because you don't own enough LIFE INSURANCE. Look into it. Your LIFE INSURANCE man is a most important person to talk to on your road to success.

There is no substitute for Life Insurance!

If you want success you need: CONFIDENCE in yourself and your future... SECURITY to give you freedom of mind... EXTRA MONEY to seize opportunity. And in the later years, when you'll appreciate it the most, LEISURE to enjoy the rewards of your achievement. These are the ingredients of success. These are the things that LIFE INSURANCE can help to give you.

109 Escape Jetliner Blaze

Firefighter's chemical foam covers one engine and wing of Boeing 707 jetliner which caught fire on landing at New York's Idlewild airport yesterday. (AP Photofax.)

Landing Gear Locks, Sparks Start Fire

By UPI, AP

NEW YORK—All 100 passengers and nine crew members escaped yesterday when a giant Trans-World Airlines Boeing 707 jetliner caught fire on the runway at Idlewild airport as it completed a flight from Los Angeles.

The passengers slid down from the doorway on a special emergency rubber chute. Workers in the terminal building 1½ miles away could see them fleeing the wreckage.

Fire was confined to the landing gear. Pilot Capt. Harry Campbell said one of the brakes locked during the

landing, creating a shower of sparks and starting the fire. Of the 109 aboard, including Hollywood actress Elana Eden, 20, only one was taken to hospital.

There has never been a fatal crash on a regular flight of U.S. commercial jet airlines. But this was the third in a series of landing gear breakdowns and hydraulic failures in Boeing 707s.

Most spectacular came July 12, 1959, when a Pan American World Airways jet clipper landed safely at Idlewild after circling for nearly four hours with part of its landing gear missing. No one was injured.

Keenleyside Spares Nest

SMITHERS (CP) — Nature-loving Dr. Hugh Keenleyside, chairman of the B.C. Power Commission, here for a commission meeting, instructed Bill Best, acting district manager, to refrain from trimming branches of a tree in the yard of Lorne Chrysler until a nesting robin had hatched her young.

The branches interfere with power lines.

Diefenbaker, Ike To Meet in June

OTTAWA (CP)—The prime minister's office announced Monday that Prime Minister and Mrs. Diefenbaker will visit President and Mrs. Eisenhower in Washington on Friday, June 3.

"The visit will provide the occasion for informal talks between the heads of government of the two countries which are close neighbors and allies," the announcement said.

The prime minister will arrive by air in Washington at noon on June 3 and leave on

the morning of Saturday, June 4, for an engagement in Winnipeg.

ANNOUNCING

the **BANK OF MONTREAL**

To commemorate the Centenary of Canada's Confederation and the 150th anniversary of Canada's First Bank ... in 1967

Canada Centennial Scholarships

A SEVEN-YEAR PLAN

124 SCHOLARSHIPS of \$750 to \$5,000 in VALUE

... Every Starter Eligible for Final Awards

If you are a high-school student — well up in your studies and confident of graduating next month — here is a great opportunity for you.

If you are a parent, with a son or daughter ready for university this year, here is important news.

We are searching for 50 top high-school students graduating this June ... young men and women ready for intensive

university training in the Arts or Sciences.

From these 50 students, we hope to find eight outstanding young scholars for Canada's Centennial in 1967. They will be young Canadians of exceptional scholastic attainment — well-equipped and anxious to blaze new trails for the benefit of Canada ... in scientific research, in the social sciences or in the humanities.

One of the winners could be you ... or your son or daughter.

50 SCHOLARSHIPS OF \$750 ...

In a nation-wide competition opening this week, 50 of the most promising young Canadian men and women, graduating from high-school this June, will be awarded Bank of Montreal Scholarships, valued at \$750 each, for entrance to first-year University next autumn.

These young Canadians will be drawn from all of the ten provinces according to population, with a minimum of two scholarship students from each province.

They will be judged by independent University Selection Committees on the basis of academic standing and character. They will enter a Canadian university of their choice as Bank of Montreal Scholarship Students to pursue studies in Arts or Science. Professional courses, such as law, medicine and engineering, are not included.

B of M Scholarship Students may hold other monetary scholarships for the first year only.

40 SCHOLARSHIPS OF \$1,500 ...

In the Spring of 1961, the top 16 of these 50 students will each be awarded a B of M Scholarship of \$1,500 for second-year university training.

In 1962 and 1963, provided at least good second-class grades have been maintained, these same students will each be awarded a B of M Scholarship of \$1,500 per annum ... leading to graduation in 1964.

24 FELLOWSHIPS OF \$3,000 ...

In the Spring of 1964, the top eight of these 16 students will each be awarded a B of M Scholarship of \$3,000 for one year's study anywhere in Canada or abroad.

In 1965 and 1966, provided a satisfactory standard of work has been maintained, these same students will each be awarded a B of M Scholarship of \$3,000 per annum for further study leading to their Doctorate.

2 BANK OF MONTREAL CANADA CENTENNIAL AWARDS OF \$5,000 ...

In 1967, to culminate this seven-year plan, the two top students — one in Arts and one in Science — will be chosen, from all 50 participants in the plan, to receive the Bank of Montreal Canada Centennial Awards of \$5,000 each for a further year of study anywhere in Canada or abroad.

Thus, to each of these two winners — if they have been participants throughout the plan — the Bank will have provided financial assistance amounting to \$19,250.

HOW SCHOLARSHIP STUDENTS ARE CHOSEN ...

Scholarship students are chosen on merit alone — academic standing and character — by independent Selection Committees of faculty members of Canadian universities. The Bank will have no part whatever in the decisions taken by the Committees.

In developing the plan, the Bank of Montreal is in no way seeking personnel for its own staff, but men and women who — through scientific research and pursuits in the public service — will contribute in some notable way to the common good of the nation in the years ahead.

SEE YOUR BANK OF MONTREAL BRANCH AND MAKE YOUR APPLICATION WITHOUT DELAY ... DO NOT WAIT UNTIL YOU HAVE RECEIVED YOUR EXAMINATION RESULTS. ACT NOW.

HOW STUDENTS IN BRITISH COLUMBIA (and Yukon) SHOULD APPLY ...

Interested British Columbian students, graduating from Grade XII this June with High School Graduation Diploma (University Programme), should visit their neighbourhood B of M branch and ask for the "Handbook for Candidates" for the Bank of Montreal Canada Centennial Scholarships. This booklet explains the Scholarship Plan in detail and outlines the simple steps required to register your application for consideration by the Selection Committee of British Columbia for one of the five scholarships available in 1960 to students in this province.

If there is no branch of the Bank in your district, then — and only then — you should address your request to:

The Assistant General Manager,
Bank of Montreal,
640 Pender Street West,
VANCOUVER, B.C.

Yours for the asking ... this booklet contains your application form.

Beautifully New...

Perfect freedom in a bra that shapes you to a lovelier line of beauty than you've ever known. Deep embroidered V decollete... Pailon lined lower cups... exclusive Diagonal Slash straps... cushion-soft Helanca elastic front band provides couturier elegance in carefree comfort. Whites Stoned In Rhodesia

SALISBURY. Southern Rhodesia (AP)—Negro mob violence has erupted against white settlers in Northern Rhodesia, a part of Britain's Central African Federation.

Police held 127 Negroes and sought others Monday for a series of arson and stoning attacks in the Northern Rhodesian copper belt during the weekend. Several persons were injured.

QUEEN DUE

The outburst led to speculation that a scheduled visit by the Queen to the federation—a union of the Rhodesias and Nyasaland in which 282,000 whites dominate a population of 7,500,000—will be cancelled. She is due in Salisbury Wednesday for a 20-day tour.

A white woman and her two daughters were among victims of Negro bands on a rampage that recalled the nationalist-inspired racial troubles which the federation government crushed with troops last spring. All three were burned.

CARS TARGETS

Cars were special targets of the mobs and Mrs. Lillian Burton, 38, was driving a car. With her were her daughters Rosemary, 12, and Debbie, 4. Police gave this account:

A band of about 30 Negroes stopped the car at Ndola, the chief trouble spot. They stoned the car and, with all three of the Burton family inside, doused it with gasoline and set it afire.

Mrs. Burton was severely burned. The two girls were slapped and kicked by the Negroes, but escaped into the brush. All three are in hospital.

GOT AWAY

Also in hospital is a white man, W. Meyer. He reported he was attacked by about 40 Negroes four miles from Ndola. His car was stoned and its windows smashed, but he managed to get away.

Victoria to Host 200 Dentists

Some 200 dentists will attend the annual convention of the B.C. Dental Association in the Empress Hotel Thursday, Friday and Saturday.

Retiring president is Carron B. Jameson of Victoria. President-elect is H. R. Henderson of Kelowna.

Teamsters Add '1'

VANCOUVER (CP)—The Teamsters' Union said Monday that, if it is officially expelled from the Canadian Labor Congress, it will continue to help CIO-affiliated unions in B.C. Provided they don't raid the teamsters.

Eight other white men reported their cars were damaged in similar raids Sunday near Ndola.

At Luanshya police used parachute flares and tear gas to disperse a Negro mob rioting at a beer hall. The officers said they retaliated after the Negroes stoned them.

Police are investigating an attempt to burn the home of Francis Chembe, a Negro MP.

Warm welcome!

How pleased your guests will be when you welcome them with that superb Scotch Whisky—'Black & White'. It's smooth—a refreshing taste that's all pleasure.

The Secret is in the Blending

The secret of the distinctive character and flavor of 'Black & White' is in the blending. Experts select and blend the finest of individual Scotch Whiskies to give you 'Black & White.'

Distilled, blended and bottled in Scotland, 'Black & White' comes in 26½ and 13¼ ounce bottles.

Proud Champions

Posing with their trophy are members of the team which won the ANAF fivepin bowling championship recently. From left in back row are George Moir, Mrs. Pat Simmons and George Paul. In front are Les Larson and Mrs. L. Douglas.

Pirates Dropping Fast As Face Clouted Again

Pittsburgh Pirates, who rushed to the National League lead with a streak of nine straight victories, are dropping almost as fast. They were tumbled yesterday for the fourth straight time and for the fifth time in six games when Roy Face, their peerless relief star of last year, was pounded for three runs in the ninth inning of a 7-4 loss to Los Angeles Dodgers.

Face, who won 18 in a row last season in an 18-1 per-

formance, went down for the third time in a still-wild season when Charlie Neal rapped him for a three-run homer.

AMERICAN LEAGUE	W	L	Pct.	GBL
Chicago	12	6	.667	
New York	10	6	.625	1 1/2
Boston	8	7	.533	2 1/2
Cleveland	8	8	.500	3 1/2
Baltimore	10	9	.526	2 1/2
Washington	8	10	.444	4 1/2
Detroit	8	10	.444	4 1/2
Kansas City	6	12	.333	6 1/2

They got no further, and the White Sox unloaded on southpaw Fred Kipp for four singles and a three-run homer by Jim Landis.

Feature of National League action was the pitching of Mike McCormick, 21-year-old San Francisco southpaw who has now won four without a loss this season.

McCormick has given up only 27 hits in the 45 innings

he has pitched. Six of them came Sunday as he stopped the Pirates, 13-1, with a six-hitter. His biggest support came from Willie McCovey, who raised his run-batted-in total to 27 in 21 games by driving in four teammates.

Chicago's New York 3-0. Cleveland at Boston, postponed, rain. Detroit at Baltimore, postponed, rain. Kansas City at Washington, postponed, rain.

CAHA Head Passes

George Dudley, secretary of the manager of the Canadian Amateur Hockey Association executive for the first time 35 years ago, served as and president of the Inter-national Ice Hockey Federation, passed away Sunday at his home in Midland, Ont.

Dudley, 70, had been ill for some time and suffered a stroke on Friday from which he never recovered.

He was elected to the CAHA executive for the first time 35 years ago, served as and president of the International Ice Hockey Federation, passed away Sunday at his home in Midland, Ont.

Dudley, 70, had been ill for some time and suffered a stroke on Friday from which he never recovered.

OUTDOORS
with Alec Merriman

Sunday's fine weather was what most people have been waiting for and it brought them thronging to the rural areas.

About a dozen campers moved into Goldstream Park and 40 or 50 other groups moved into the campsites for all-day picnics and just plain back to nature life. It was sort of like a conditioning ground Sunday for the summer camping that is upcoming. They brought lounge chairs, cook stoves, air mattresses and practically everything except the actual tent and made just like they were camping.

That sort of day-use of the camping area is discouraged in the summer months when maximum use is made of camping sites by tenters, but at this time of year a picnic in the park can be a delight.

There is a special area for picnics only at the lower end of the park beside the highway and that also was in full use Sunday.

Along the Goldstream banks a group of teenagers were seen panning for gold, a past-time which used to be popular some years ago and a few flecks can still be found along the river bank. Included in the party were John Bartley, Lawrence Floyd, Gary Johnson, Tony Johnson, Ron Hotchin, Bill Thompson and Bob Weaver.

At the Goldstream end of Saanich Inlet Dave Dorman, Gordy Howard, Milton Barnes, Bob Neal, Chuck Simmons and Norman Chattell, all of Victoria Sea Searchers Club, spent Sunday skin diving and came up with 100 pounds of cod and a 20-pound red-snapper, they speared near Goldstream Island.

They were in training for the mammoth skin diving competition planned by the three Victoria clubs at the Breakwater July 10. It will be the first time all clubs have combined their efforts and some 150 skindivers from all over B.C. and the United States are expected to take part.

Any edible fish, except halibut and salmon, will be fair game for the underwater spear fishermen. There will be prizes and trophies for the biggest fish, numbers of fish and team competitions.

The fly hatch is now on and trout will take a fly when they will soon a gang troll and worm.

That is the information given to us by Roger Monteith who has been fishing the Cowichan River and Shawnigan Lake since 1900.

He fishes with fly exclusively and says the fly hatch will probably last a couple of weeks yet and during this time fly fishing will be better than any other kind for trout.

The Cowichan River is still fairly high, but last Wednesday he got seven or eight good-sized trout and lost several others in the top end of the river, just below the railway bridge.

Try a Cowichan River bucktail or a Peter Ross wet fly if Monteith's advice for the Cowichan. For Shawnigan Lake he advises a number two wet Haggard or a number 14 Professor dry fly. He limited on Friday.

Now it can be told.

For the past couple of weeks nearly all game wardens in British Columbia, including Inspector R. W. Sinclair of Victoria, Victoria warden Jack Lenfesty, Duncan warden Bill Fowkes, Alberni warden George Vincent and Campbell River warden George Taylor, have been away on a special inter-service training course at Green Timbers Ranger Camp, near Vancouver.

Reason the course was kept secret is that there has been practically no fish and game branch enforcement during the time the course was on.

It was no picnic for the wardens. They took in 110 hours of lectures in 11 days.

Wouters Wins
Bicycle Race

Hank Wouters won the senior event Sunday as the Victoria Bicycle Club opened its season with a one-and-a-half-mile race held at John Dean Park in West Saanich.

Wouters won the event with a time of seven minutes, 16 seconds. Gary McKay placed second with a time of eight minutes, 14 seconds.

Junior men's division winner was Ken Hay while Marilyn Burley placed first among lady entrants.

Girl Golf Students
Play at Gorge Vale

Ladies' division of the Gorge Vale Golf Club will host the girls taking part in the junior golf development program fit a greensomes competition scheduled for Wednesday and Thursday.

Students will be partnered with a member in the four-ball event. Starting times:

WEDNESDAY
5:45 p.m.—Mrs. C. Holland and Pat Dealey vs. Mrs. M. Warawa and Joan Gilmore.
5:52 p.m.—Miss M. Longpre and Susan Boyd vs. Miss R. Roberts and Judy Walsham.
5:59 p.m.—Mrs. R. Panthorpe and Lorraine Goulet vs. Mrs. A. Cooke and Ellen Jacobson.
6:06 p.m.—Miss I. Stock and Vicki Nordal vs. Mrs. E. Dye and Marjorie Bull.
6:13 p.m.—Miss H. Panton and Diane Bremner vs. Mrs. C. Smith and Lorraine Elliott.

Papa's \$10,000 Win
Mother's Day Award

LAS VEGAS, Nev. (AP)—The golfing clan headed for Texas Monday and the national invitation at Fort Worth. And the happiest of them all was Jerry Barber.

The little Los Angeles veteran walked away from the field Saturday to win the \$42,400 Tournament of Champions. And since the Barbars have five youngsters, the \$10,000 Jerry won was a nice Mother's Day present for his wife Lucille.

Barber, at 44 and five-foot-five, the oldest and smallest in the field, went into the final round at the Desert Inn Country Club with a shaky two-stroke lead over Julius Boros and Jay Hebert only three strokes in arrears.

Jerry is a club pro and doesn't play as much tournament golf as he used to. But he soon dispelled any idea that he might crack under pressure.

He birdied the first hole and

went on to shoot a 33-34-37 for the par 36-36-72 test and wind up with a 72-hole score of 268. The total was seven shots better than the previous low here—275 by Stan Leonard of Vancouver in 1958. It was also 20 strokes below par for the distance.

Hebert finished with his fourth consecutive 68 and 272 to take the \$5,000 second-place purse. Boros had a 71 and 274 for \$4,000.

Of the 21 golfers who were eligible to take part by reason of having won a PGA tournament during the past year, only Eric Monti was unable to match par figures and only Monti and George Bayer, who had a par 288, were higher than three under.

Par of 72 was broken 63 times in the 88 rounds played with Ken Venturi's wind-up 77 the highest single round. The 7,000-yard Desert Inn course played so easily that Hebert was four strokes off the lead at the finish despite four consecutive four-under-par rounds.

Only Monti failed to break 70 at least once.

Jerry Barber, 68-66-67-368-\$10,000.
Jay Hebert, 69-68-68-205-\$5,000.
Julius Boros, 70-67-68-215-\$4,000.
Eric Monti, 67-73-68-208-\$3,000.
Bobby Casper, 67-68-68-203-\$2,500.
Arnold Palmer, 72-65-70-69-276-\$1,800.
Doug Sanders, 69-68-68-205-\$1,500.
Doug Ford, 70-73-69-67-279-\$1,250.

The original MAN-TAN used by millions in the U.S.A.

TANS YOU LIKE THE SUN

High Tanning Potency Assures Faster, Darker
Longer-Lasting "Tan" Without Sun or Sunlamps!

AVOID THE YELLOW UNNATURAL LOOK POSSIBLE FROM LOW POTENCY, IMITATION PRODUCTS!

TAKE ONE MINUTE TO USE!

LOOK TAN IN HOURS—FOR DAYS!

From Office White to... "Caribbean Tan" in about 6 hours
with amazing crystal-clear After Shave Lotion!

Seven affidavits from model and photographer prove these tans were taken without special lighting, makeup or retouching. The "after" photo shows the actual result of using Man-Tan.

Get a Golden Tan The Very First Time You Use MAN-TAN—or Pay Nothing!

✓ Shown to be safe in clinical tests and laboratory tests!

✓ Not a stain, paint, color, or face make-up—colorless!

✓ The tan won't wash off or rub off like make-up!

✓ Feels naturally like a real suntan!

✓ Man-Tan contains no iodine—graceless!

Kind of After Shave Lotion called MAN-TAN.

MAN-TAN is NOT an actors' "make-up" or similar coloring. It is an absolutely colorless After Shave Lotion. Graceless, too.

Looks like water—Works like magic!

MAN-TAN contains no iodine. Its revolutionary action depends on Protolol, a remarkable discovery which starts to work the instant it comes in contact with the top layers of human skin. Protolol takes about six hours to work... makes you look tan for days.

Tested by doctors, shown safe, effective! The MAN-TAN formula has been laboratory tested and clinically

tested. In tests by leading Dermatologists it was demonstrated safe, non-irritating, on all types of normal skin—as well as remarkably effective.

MAN-TAN works as well and as safely on fair-skinned red-heads who could never get a tan in the sun as on olive-skinned people. May be used even around the eyes and on tender skin.

New MAN-TAN, used as directed, is guaranteed to give you a smooth golden tan color wherever you use it on face or body—or your money back.

MAN-TAN
ACCEPT NO SUBSTITUTES
4 oz. size only \$3.00
Pay no more than in the U.S.A.

WHY MAN-TAN WORKS BEST

To give you completely satisfying results, we have scientifically tested and compounded the MAN-TAN formula. For maximum potency—the potency that laboratory tests have proved is necessary for a deep, rugged sun look—Man-Tan contains almost twice as much of the unique "tanning" ingredient as Brand X does. The water potency of Brand X can only result in an unnatural, yellow look that bears no resemblance to a real suntan. Don't waste money on weak imitations that can only disappoint you! For a faster, darker, longer-lasting tan—be sure you get Man-Tan!

NOTE: Avoid imitations—get the original U.S.A. product used by movie, TV and stage stars—MAN-TAN. Tested for best results and safety over 1 year.

Edgelow Plan

Contract Out
City Lighting

City council should close down its street lighting department and have the work done by private contractors, Ald. Geoffrey Edgelow said yesterday.

"I would say there is a considerable saving if the plan is adopted," he said. "I don't think a firm like the B.C. Electric or the city of Vancouver would lease out this work unless it paid them to."

Ald. Edgelow made his suggestion at a meeting of the public works committee of council. He is chairman of the committee.

He told the committee a private firm in Victoria is

willing to hire all city employees in the lighting department and to buy the city's ladder truck used to service overhead lights.

Among savings, apart from the salaries of the 17 men who would be employed by the private firm, Ald. Edgelow listed: Repairs, upkeep and depreciation on city trucks used by the department would stop.

Purchase and repair of tools would be ended, and it would eliminate the necessity of supplying storage and warehouse facilities for equipment.

City engineer James Garnett was instructed to investigate the suggestion and report back to the committee.

Estimates for the department this year are: Salaries, \$12,415; office supplies, \$375; car allowance, \$500; building repair and maintenance, \$500; power supply, \$66,500; line maintenance, \$43,500; decorative lighting, \$1,675; cluster lighting, \$26,535; sundry expenses, \$1,350. The total is \$153,350.

The total cost of the department in 1959 was \$139,009.33.

Top Liberal
To Speak

Provincial Liberal Leader Ray Perrault will be guest speaker tonight at the Oak Bay Liberal nominating convention at the Oak Bay Municipal Hall at 8 p.m.

Victoria lawyer Alan Macfarlane is seeking the provincial nomination, but other nominations could be made from the floor. The seat was held by the late P. A. Gibbs.

'Flagrant'

Toronto Bids Bring
Price-Fix Charge

TORONTO (UPI)—The Toronto city council last night unanimously agreed that an immediate investigation be

held into what the council termed a violation of the combines act after four cement producers supplied identical bids to the city.

One Look
Killed Job

HAVELOCK, Ont. (CP)—John W. Sheffield of Sutton, Ont., hired at \$3,600 a year plus \$500 car allowance as police chief here, has decided not to take the job.

The police chief's duties include caretaker of the town hall, caretaker of fire-fighting equipment, building inspector and weed collector.

"He just came, looked it over and left," said Mrs. Dorothy McMillan, village clerk.

Alderman Albert Cranham pointed out that the firms: Canada Cement Co. Ltd., St. Mary's Cement Co. Ltd., St. Lawrence Cement Co. Ltd., and Lake Ontario Portland Cement Co. Ltd., each offered the city a year's supply of normal and extra strength Portland cement, and each quoted the same price by bag or truck load.

City records revealed that last year the same companies also submitted identical bids. "This one of the most flagrant examples of price fixing I have seen since joining the council," said Cranham.

Billets for Paraders
Still Needed Here

Provision of one-night billets for out-of-town bandmen who will participate in the May 23 Victoria Day parade are "coming along quite well but a few more

offers are needed." Greater Victoria Celebrations' Association secretary Mrs. Ethel Bishop said last night.

She said that, although five small cash prizes will be awarded for the best-decorated children's bicycles, there hasn't been a single entry.

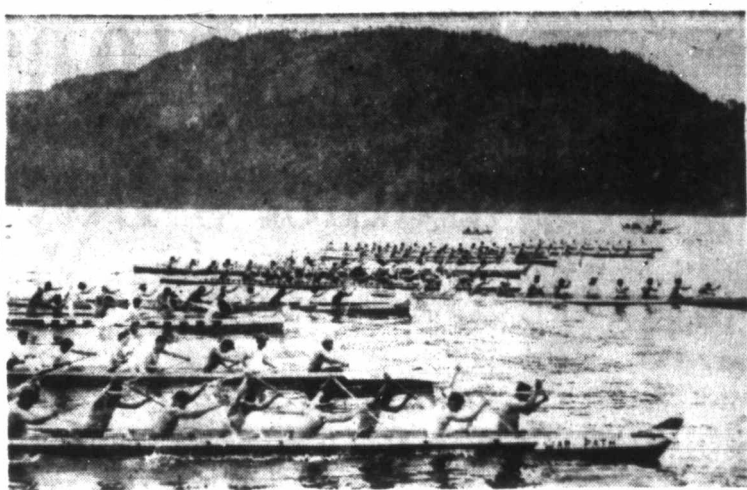

Anyone willing to offer accommodation to visiting bandmen and persons seeking parade information should call Mrs. Bishop at EV 2-3912.

Meter Thefts
\$150 a Day

VANCOUVER (CP)—Police say fast-working thieves have been making \$150 a day for the last three weeks by emptying parking meters just before the arrival of the regular collection man.

They said the men have copies of the keys required to open the 2,200 meters in the city.

ANKARA (UPI)—The Turkish parliament Monday ratified the mutual defence agreement with the U.S. in a session boycotted by opposition deputies on the grounds that it was futile to continue in opposition during the present crisis.

Start of a race containing the largest group of 11-man canoes to race here in recent years is shown. "Mermaid" from Galiano Island won the Duncan City Trophy—(Colonist photo by Charles Thompson.)

Duncan Mayor's Proposal

Council to Paddle
Its Own Canoe?

DUNCAN — Mayor Jack Dobson, who describes himself as an ardent fan of Indian sports, said the 71st Corpus Christi sports over the weekend were "the best I have ever seen."

But he complained that if Cowichan's entry in the 11-man war canoe race continues to lose, he may try for the prize with city council.

Thirteen war canoes were entered, making the biggest field in at least the last 10 years, said Norman Joe, sports chairman.

Reeve Donald Morton, of North Cowichan, also passed on compliments and added he is astounded at some of the paddlers who were able to complete the six-mile war canoe race twice.

Winner of the first prize for both races was the canoe Mermaid with a crew from Galiano Island. It won the Duncan city and the North Cowichan shields.

Second money for both

events went to paddlers from Nanaimo aboard War Path. They ended in the same order after each race.

In the first war canoe race Saanich CYO came third. In the final Kuper Island won third place.

STAR ATHLETE

In field sports, Richard Thorne, teenage schoolboy from Kuper Island residential school, won the award for star athlete of the year. It was his second year in a row, and first time one person won it twice in the 10-year history of the trophy.

Gilbert Paul of Saanich won the Joseph Joe memorial trophy for the mile open race.

Cowichan Maple Leafs took the football championship after defeating six other teams. They beat Nanaimo 4-1 in the final.

OUTSTANDING

Five-month-old Norman Joe, junior, son of the chairman, was judged the most "outstanding" baby of nearly 20 entered in the baby contest.

Top Kiwanian:

Too Many Critics
Of South Africa

VANCOUVER (CP)—The president of Kiwanis International Saturday criticized people who attack South African racial policies without having first-hand knowledge of the situation.

Albert J. Tully, a lawyer from Alabama, said in an interview:

"Too many people today have a tendency to judge without having full knowledge of the facts."

He said he refused to discuss South Africa's racial problems because "I have no personal experience of them."

He said good progress is being made toward a satisfactory solution of the racial problems in the southern United States.

"Basically, these involve more than integration. There are economic and political and social problems and we must progress in the entire field."

He was here on his way to attend a meeting of representatives from all Vancouver

1,000 Eagles
Coming Here

One thousand Eagles will descend on Victoria June 10 to 12 when the Victoria Aerie of the International Order of Eagles plays host to the annual British Columbia Eagles convention.

The convention will bring together Eagle leaders from all parts of the province to elect officers and plan activities for 1961. Among subjects on the order of business is the "Jobs Over 40" program to ban job discrimination based on age.

Public Camping, Picnic Site
To Be Built at Long Beach

Provincial parks department had surveyors at Long Beach last week doing preliminary work on a public camping and picnicking site. Site selected is near the old incinerator at

the west end of the beach. The incinerator, built by the army during the war, will come in handy for campers.

Water is to be laid to the site and sanitary facilities installed.

Pension Cheques Came Too Late

VANCOUVER—The pension cheques arrived too late for John Bertram Currie Hess, 60. Found two weeks ago in Burrard Inlet, his pockets filled with rocks, his body was identified yesterday by the landlady of a rooming house who had evicted him shortly before his death.

The woman had said she "carried" him as a roomer for some time. He had told her he was trying to get a pension and he had some property in Toronto he wanted to sell.

NEW YORK—Stanley Gorse, 29, awoke in his locked room in a boarding house to find he had been shot twice in the head, went to police and collapsed. Doctors found one bullet had creased Gorse's skull, another was in the roof of his mouth; Gorse is in critical condition.

STEAMBOAT SPRINGS, Colo.—Dr. Barbara Moore sprained an ankle about a third of the way on her 3,000-mile hike from San Francisco to New York City, but didn't stop. She's 100 miles behind two British sergeants.

SEOUL—Kwak Yong Ku, former president Syngman Rhee's onetime bodyguard, was arrested and a mass police command shake-up announced while legislation was prepared to give South Korea cabinet government.

L'ASSOMPTION, Que.—Jean Beauchamp, three-year-old boy found in swampy woods Sunday after being lost 94 hours, is resting comfortably in hospital.

LOS ANGELES—After a court-approved Mother's Day visit to her playgirl-daughter, Beverly Aadland, Mrs. Florence Aadland told reporters: "Don't let anybody tell you this girl doesn't love her mother."

WASHINGTON—Gen. Charles Foulkes, who retires as chairman of the Canadian chiefs of staff at the end of May, called on President Eisenhower, a wartime comrade, to "say goodbye."

PRINCE GEORGE—Forests Minister Williston predicts that in 1961 Prince George forest district will be the only district in B.C. to surpass its 1956 lumber record.

TORONTO—Harold Linden, suburban York Township councillor named in a royal commission report on township affairs, has resigned, stating he is "completely innocent of any wrong doing."

LONDON—Polish-born Sir Hersch Lauterpacht, 62, international lawyer and one of the 15 judges of the International court of justice, died of a heart attack.

CALGARY—Singing star and comedian Phil Harris will head the opening-day parade of the Calgary Stampede, July 11. Also in the parade will be Duncan Renaldo, the Cisco Kid of television.

Gun Alarm For Birds

WINNIPEG (CP)—A police cordon with guns drawn converged yesterday on a rifle-toting man on a North Winnipeg street following telephone calls from alarmed residents that a man had gone berserk.

"I am the city pigeon shooter," explained Henry Iwacha of the city health department to red-faced constables. He has shot 6,000 pigeons.

Speed Up Talks

Canada Urges Geneva

OTTAWA (UPI)—Canada has put forth three proposals to speed up the 10-nation disarmament negotiations at Geneva, External Affairs Minister Green said Monday.

The minister, who said the East-West committee's progress to date was "not very satisfactory," told the Commons this country advocated:

- Discussion of specific disarmament items, rather than general issues, by the 10-nation committee, which includes Canada.

- Efforts to work out "package deals" by which one specific item from the East

and West disarmament programs would be paired off for negotiation and possible agreement.

- Holding some of the Geneva sessions on an informal off-the-record basis to avoid the "talking for the record" experienced thus far.

Green said the Canadian suggestions were "well received" by last week's NATO council meeting in Turkey.

"Canada is anxious to get a great deal more done when the committee sessions resume next month," the minister said. "We urged the four other Western members to do everything possible to get the negotiations moving."

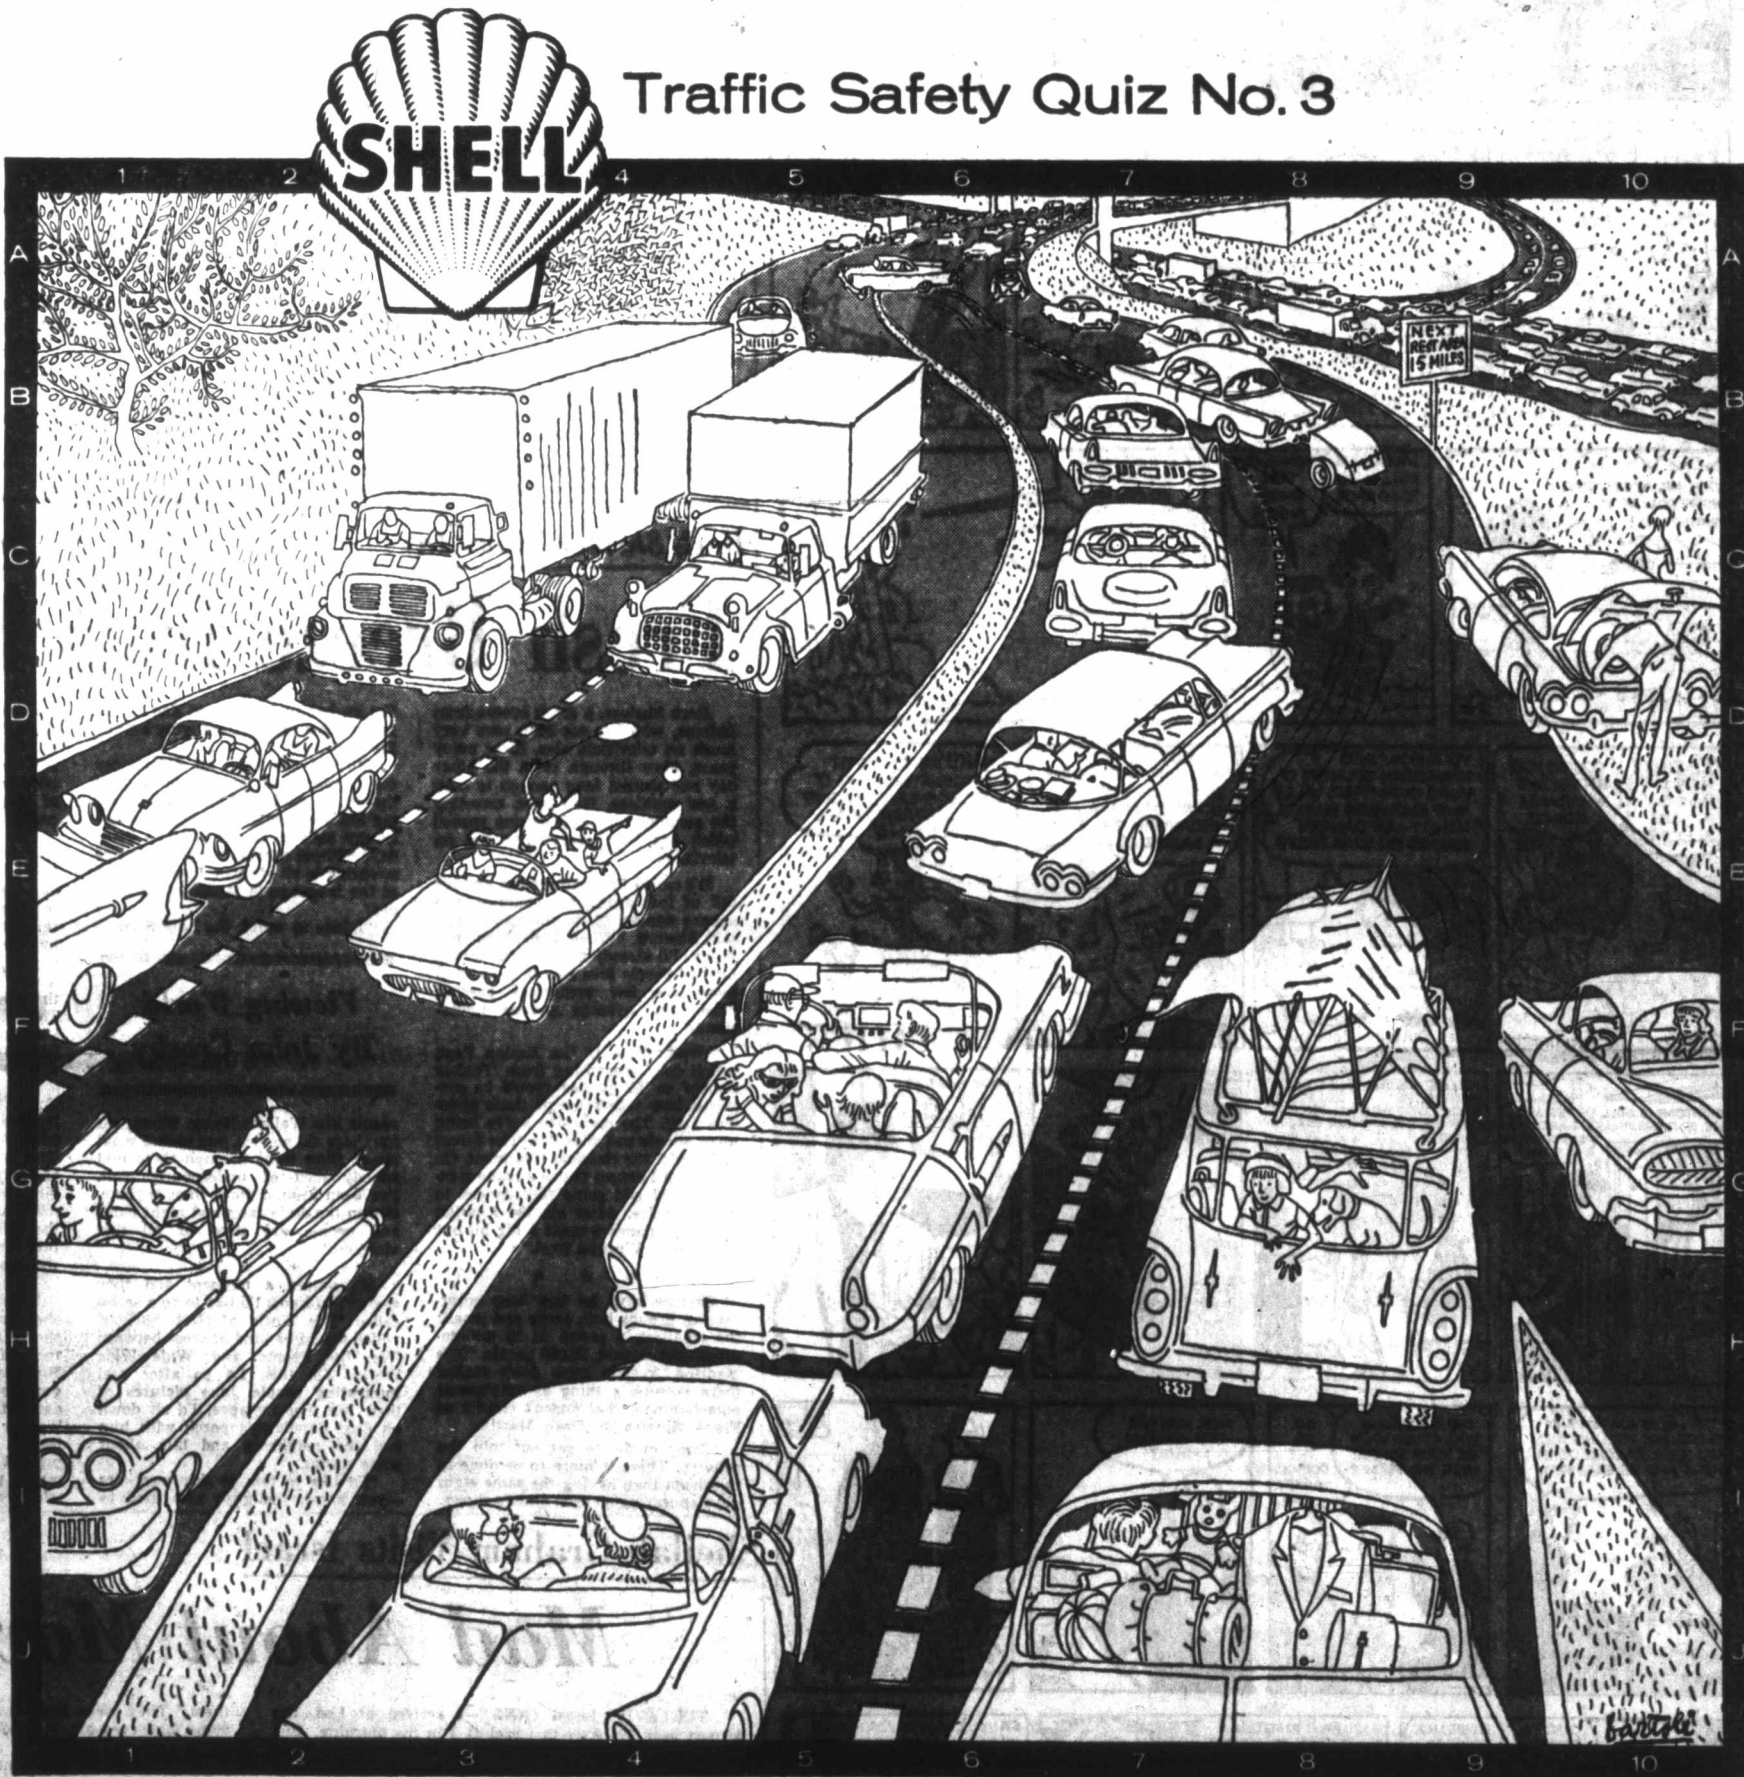

VANCOUVER—Col. Gordon Speedie of Ottawa, special aide to Field Marshal Viscount Montgomery, has been admitted to hospital here with a back ailment.

Bridge Results

Winners of the weekly tournament of the Victoria and American Contract Bridge League, were: 1. Mr. and Mrs. Frank Artlett, 2. Mr. and Mrs. Albert Jorgensen, and 3. Mr. and Mrs. George Morgan (tie), 4. Don Hill and Charles Caworth, 5. Laura Tisdale and Fred Small.

If You're TIRED ALL THE TIME

Now and then everybody gets a "tired-out" feeling, and may be bothered by backaches. Perhaps nothing is seriously wrong, just a temporary condition caused by urinary irritation or bladder discomfort. That's the time to take Dadd's Kidney Pills. Dadd's help stimulate the kidneys to relieve this condition which may often cause back-aches and fluid buildup. Then you feel better, rest better, work better. Get Dadd's Kidney Pills now. Look for the blue box with the red head at all drug counters. You can depend on Dadd's.

Can you find 10 traffic hazards in this picture?

Look sharp! This quiz checks more than the acuteness of your vision. It also tests your judgment of what's right and wrong on the road. Look again—then rate yourself against the list. But keep in mind that perceiving a traffic hazard is not enough. A good driver is always prepared to take instant action to avoid trouble.

Like all good citizens, Shell is interested in safety. We urge you to be alert, drive carefully, know the rules—and obey them. Remember: about 75% of all accidents are caused by the driver—not the car.

- (Each hazard is located by letter and by number. For example, F8 indicates the location of the station wagon at the lower right of the picture where lines from F and 8 would cross.)
- 1 Boston station wagon is improperly secured (F8, lower right)
 - 2 Driver's rear vision blocked by packages (J8, lower right)
 - 3 Parked car not completely off highway (C10, center right)
 - 4 Car attempting to pass on the right (D7, center)
 - 5 Car with trailer is cutting in on car at left (B8, upper center right)
 - 6 Car crossing divider (A8, top center)
 - 7 Child losing ball from car (E4, left center)
 - 8 Driver reaching in back of car, his eyes off road (G1, lower left)
 - 9 Car following car ahead too closely (D2, left center)
 - 10 Car with one door not completely closed (I-5, bottom center)

(These are major hazards; there are others. If you found more than ten, congratulations!)

That's why Shell says: *Your Car Has Built-in Safety—YOU!*

Garden Notes

Crisp, Juicy and Mild

By M. V. CHESNUT, FRHS

In Sunday's column I told you about the Colonist's latest offer of free seeds—seeds of the New Zealand cucumber "Crystal Apple"—a vigorous, trouble-free cucumber which bears a heavy crop of apple-shaped white cucumbers with an absolute minimum of fussing or attention.

The more I learn about this cucumber from "down under," the more enthusiastic I become. For one thing, the flavor is out of this world—crisp, juicy and mild—and I am told that folks who would be rolling on the floor in the pangs of violent indigestion after eating the ordinary kinds can munch away at the New Zealand cucumber without their stomachs doing any flip-flops at all.

Another factor I like is the good-looking appearance of the vine and its fruits. The dark green foliage and the apple-shaped white fruits are highly ornamental, and it seems to me that this would be an excellent vine to cover the back fence even if you couldn't eat it. It is even possible to grow the vines indoors in pots, training the vine up and across the top of a sunny window and pinching back the growing tip and side shoots to keep it within bounds.

I guess that the most important attribute of the New Zealand cucumber is its ease of culture. While there isn't any law against starting a few of your free seeds indoors in pots of soil or in a coldframe, it isn't really necessary. Simply stick the seeds in the ground any time now, covering each one with a hotkap or an upended jam jar to speed germination and you'll be eating plenty of cucumbers from early July on.

This variety is an exceptionally heavy yielder and you can expect to pick a dozen or more cucumbers from each of your vines. It produces over quite a long period of time, too, providing you keep the vines picked over and don't allow any of the fruits to mature their seeds.

The cucumbers themselves are oval, about 4½ inches long and 2½ through. Pale green when first formed, they turn gradually to a creamy white when mature and ready to eat and absolutely free from spines or prickles. You can use them in exactly the same way as the ordinary kinds—raw in salads or sliced in vinegar, cooked with sour cream in the Hungarian and Russian way or made into pickles in a dozen different recipes.

When you send for your free seeds of this extraordinary cucumber, there are one or two points I would like to make clear. First, it is not necessary to be a Colonist subscriber to get your free seeds, nor is it necessary to have a copy of the coupon at the foot of this column—that coupon is there just for your convenience, to save you writing a letter. If your next door neighbor doesn't take the Colonist and has no coupon, tell her to write me a letter and ask for a packet of New Zealand cucumber seeds.

I make only one condition—that you supply the stamp and envelope to carry your seeds back to you. In other words, be sure to enclose a stamped and self-addressed envelope. We'll stick a packet of the seeds in your own envelope and mail it right back to you.

Tomorrow I will start giving you a few pointers on how to prepare the ground and sow the seeds and in general how to grow good cucumbers. If you are not a regular Colonist subscriber, I suggest that you make arrangements to take the paper for the next few days anyway, clipping and pasting these how-to-grow columns in your garden scrapbook.

Free Seed Offer

GARDEN NOTES, THE DAILY COLONIST
VICTORIA, B.C.

Please send me your New Zealand cucumber seeds.
I enclose a stamped, self-addressed envelope.

Herb Shriner Blows In

Fresh Breeze from Indiana

Herb Shriner, a fresh breeze from Indiana, who has not been seen very much on television, alas, these many years, blew through town the other day and paused long enough to emit a few opinions. He's been traveling the country with a television special which has been everywhere but on television.

It's called Pops Americana and it's full of folk songs, sea shanties, and square dances. "I do the narrating," said Shriner. "When I do it on television, I'll already have it road tested. Lots of people love simple music and there are few orchestras playing music the average person understands."

"Well, there is the Boston Pops which does everything from 'Yankee Doodle' to TV jingles (you'd be surprised how nice some of those melodies are). The orchestra we're using gives simple melodies like 'The Street of Laredo' the classical treatment. On television I expect to use a name symphony and add some folk dances to its repertoire. After all, the Russian Mayevskys made a big hit out of our own Virginia Reel."

Shriner says he has been entertaining groups both large and small: the smallest, a group of 10 millionaires—the largest, 80,000 people. "The Madison Avenue guys don't realize there is such a thing as wholesome entertainment that doesn't consist of Frank Sinatra or Dean Martin."

"They ought to get out into the country. There is more to be done in television than having the same eight guys appearing on each other's shows."

I'm an habitual 'moser' and I have found some great talent lying around the country."

Shriner has been an entertainer for 23 years and the present state of the art he finds not only disheartening but frequently shocking. "I won't let my kids go to the pictures these days without checking it first. They're swearing in all of them. I was shocked at the language in 'Anatomy of Murder.'"

"I love to watch the Late Show—"

Viewing World
By John Crosby

people like Wallace Beery. When you see those old movies, you realize what moral fibre went through them and nobody died of undernourishment. I've been around more than anybody else in the state fairs and night clubs and people are tired of all that violence."

He mused a moment and then said: "You know I'd like to do a series called 'The World of Herb Shriner' which would be kind of cross between 'We, the People' and 'Wide World World.' On this, I'd go after real interesting people, take pictures of their life. For instance, I'd sit down on Carl Sandburg's porch with him and the neighbors and talk about some things."

"I'd like to talk to ship wreckers—you know, the guys who used to lure ship on the rocks and then loot them for a living. There's still some of them around. Then there's a country doctor in Virginia who has adopted 200 kids. Nobody with a sense of humor has ever tried to talk to people like that."

On the question of violence, I'd like to add that never in my memory has there been such a wild attempt to cover up, to apologize for, to deny that it exists. "Sponsor" magazines has an article in its current issue in which the industry heads variously laugh it up with the arguments: there isn't really that much violence. The classics are full of violence. Violence doesn't really harm children. Even Dinah Shore suggests violence. And so forth.

All this is, of course, malarkey. There is too much violence—shootings, sluggings, pistol whippings on television. Most of this violence is already in the can (much of it out of Warner Bros.) and all these apologies are meant to safeguard the bank-rolls of the people who produced these films. The idea is to unload all this junk on your livingrooms before the heat gets too great.

There'll be a slight decline in the shoot-em-ups next year—49 network shows as compared to 54. As usual, most of them will be on the American Broadcasting Company—which has done more to degrade television standards than any other group except Warner Bros., with which it is in league. Forty-nine gunfests and, at present writing, only one serious dramatic program on all of network television.

Sheilah Graham Visits Israel

Mad About Movies

TEL AVIV, Israel (ANA)—I arrived at Lod, the airport near Tel Aviv in Israel at 3 in the morning. But the top of the airport building was jam-packed with people awaiting the arrival of the huge El Al Airlines Britannia jet prop plane. You would have thought it was 3 in the afternoon.

A young Israeli soldier stamped my passport, and in a few minutes I was in a station wagon sent to meet me by the "Exodus" film company, and we sped on the tree-lined road to Haifa.

We passed Arab women on foot, and Arab men on donkeys—there are more than 150,000 Moslems in Israel—between 4 and 5 a.m., as the day began. And Haifa already had many women on the street, and men, going to work. And young, sturdy-looking soldiers of both sexes.

A few hours later I was on my way to the "Exodus" location near Nazareth, passing the village of Kaf Kana, formerly Cans, where Christ turned water into wine at the marriage ceremony.

Leaving the Zion hotel in Haifa, I was surprised at the crowds of summery-dressed teenagers, waiting for what they call the "autograms" of stars Paul Newman, his wife, Joanne Woodward, Eva Marie Saint, Sal Mineo, Lee J. Cobb, Michael Wagner, and British actors Alexander Stewart and Jill Maynard.

They are mad about movies in Israel. It's a tiny country, but there are upwards of 200 film theatres, and the latest statistics rate them a 30,000,000 a year attendance. There is no television. "Reclamation and settlement of the land come first," says Prime Minister Ben-Gurion.

Director Otto Preminger introduced me to Maj. Gen. Francis T. Rome, technical adviser for the British aspects of the "Exodus" movie. Rome was a commander of a parachute brigade in Israel before it achieved statehood, and was in charge of the blockade that prevented the landing of so many ships crammed with Jewish people from countries in which they had been persecuted. There is also a Jewish technical advisor for the movie, and an Arab to look after the interests of his countrymen. Preminger is determined that everyone will be happy. But this isn't always possible!

The scene was at Gan Dafna, the children's village. The youngsters were supposed to cry. But they were having such a happy time, they couldn't. The exasperated Preminger finally yelled, "Tell them I'm going to eat them." They were told. The idea of being eaten by the blond, blue-eyed Mr. P. made them howl with laughter.

Another scene—in front of the latrines in the Acre prison, with Alexander Paal, a producer, doing some still photographs as a favor to director Preminger. He was told by Otto: "Back, go back," with disastrous results to Mr. Paal, who never did find his finger.

Eva Marie Saint, who plays Kitty in the Leon Uris best-seller, told me she arrived from the States with her two children, her husband, and her parents—who baby-sit while Eva is working.

Veteran actor Felix Aylmer—he was in "On the Terrace" with Newman, and has been on the stage since 1911—plays a doctor in "Exodus." Felix told of the book on Dickens he wrote last year, "but I had to buy up the whole of the second edition because of one wrong fact!"

During the night shooting, some Arab journalists on the set stated they had heard that Gan Dafna was to be burned to the ground with all the children, to be burned by Arabs. "We heard it on the Cairo radio," said one. "Not true," they were assured.

The "Exodus" script calls for John Derek, playing an Arab, Taha, to be hanged. "Don't hang him," said an Israeli policeman. "It might start a riot. The Arabs won't understand." One Arab from the village came over hollering that the strong arm lights were keeping him awake.

As I said earlier, you can't keep everyone happy!

Million Chinese Protest Pact

PEKING (Reuters)—More than 1,000,000 demonstrators, swaying under a sea of red banners and placards, chanted anti-U.S. slogans Monday in a giant protest against the revised Japanese-United States security treaty, the third such mass rally in 11 days.

Mount Aconcagua, 22,834-foot peak in Argentina, is the highest point in either South or North America.

Tin Miners Don't Get Pimples

Because Cornish tin miners appeared to avoid skin blemishes, British chemists suggested the use of tin in treating Boils, Acne, Pimples.

Now, convenient, tasteless tablets containing 42.5% metallic tin are available under the brand name "Tinoid." Rapid, satisfactory results are claimed for this inexpensive treatment.

Tinoid Tablets are sold without prescription at all drug stores, \$1.00.

Affect 'Not Too Great'

Nikita Reassures Summit Colleagues

PARIS (UPI) — Soviet Premier Khrushchev has told the plane incident, Soviet sources said, that the summit talks should not be affected. The sources said this was the substance of a letter from Khrushchev which Soviet Ambassador Sergei Vinogradov delivered to President de Gaulle at the Elysee Palace.

SAME THOUGHT

Communications containing the same thought were sent by Khrushchev to President Eisenhower and Prime Minister Macmillan.

According to the sources, Khrushchev did not downgrade the seriousness of the incident but said it should not be permitted to have too strong an effect on the atmosphere of the conference starting here Monday.

USEFUL START

The Soviet premier, the sources added, also said that he regarded his recent bilateral discussions with Western leaders, and the visits he has exchanged with some of them, as useful preparations for the summit.

The report caused immediate speculation that Khrushchev wanted to counteract, at least partly, the effect of the anti-U.S. campaign in Russia over the plane incident.

TOUGHER STAND

The Soviet premier has exploited the incident to toughen his stand just before the summit, according to the general interpretation in French and other Western diplomatic circles here.

His messages suggested to some Western diplomats he did not want Westerners to think he has written off the summit in advance as a useless diplomatic exercise—an impression he seems to have created for many.

Now, the diplomats thought, he is trying to correct that impression.

'Spy Plane' Wreckage

Spectators inspect what Soviet news agency Tass says is wreckage of U.S. "spy plane" shot down last week.— (AP Photofax.)

Not the U2?

Designer of the crashed U2 jet plane, C. L. Johnson of Lockheed Aircraft said yesterday Russian pictures of a downed plane are faked and probably are of a crashed Soviet "Beagle" bomber. He thinks the U.S. plane was not shot down but crashed with mechanical trouble, has been hidden for Red scientific study.— (AP Photofax.)

Reuther:

'History's Worst Blunder'

WASHINGTON (AP) — Walter Reuther Monday denounced as "the most stupid blunder" in U.S. history the incident involving the capture of a U.S. pilot in Russia on a spy flight.

Reuther, president of the United Auto Workers Union, said his criticism was that the government reversed its stand overnight and practically agreed with everything Soviet Premier Khrushchev said—that the flight was a spying mission.

"Khrushchev can now use this to challenge our credibility before the world on everything else," Reuther said.

Spy Incident Catches U.S. 'With Hand in Cookie Jar'

ATLANTA (UPI) — Sen. Richard Russell, chairman of the Senate armed services committee, said Monday, U.S. military authorities were "almost incredibly stupid" to send an ill-fated spy plane over Russian soil so near the summit conference.

"It was just like a boy getting caught with his hand in the cookie jar," he said. "No sane person would doubt that

we were trying to get the locations of their military bases."

WASHINGTON (UPI) — The U.S. plans to instruct its ambassador to Moscow to seek an interview with the pilot of the U.S. spy plane shot down in Russia, the state department said Monday.

Move was disclosed just before Secretary of State Herter and intelligence chief Allen

Dulles went into a closed-door session to give Congressional leaders a top-secret explanation of the sensational plane incident.

Briefing followed growing Congressional demands for a further explanation of the plane incident.

NORTON, Va. (UPI) — One former coal miner asked another for the release of his pilot-son from Russian custody.

Oliver Powers, who mined 15 years before settling down near here, appealed to the "generosity" of Soviet Premier Khrushchev for the safe return of his son, Francis G. Powers.

Peace Threatened Victorians Think

Shock, a threat to peace talks at the summit, and worse were the reactions of a group of Victoria residents commenting yesterday on the United States intelligence plane brought down last week in Russia.

Of a dozen people questioned, almost everyone expressed shock that such a

thing could happen at a time when East-West relations are so touchy.

"It's awkward for everybody concerned," said Shirley Allan, 1912 Duchess. "If Russia were looking for an excuse, this could trigger a third world war."

Jack Ward, 1980 Bajan Avenue, was inclined to think the whole thing was "propaganda." But he felt, "it is a touchy situation which could lead to war if not handled properly."

Mrs. Donald H. Little, 924 Arm. was one of many who foresaw a grave effect on the summit talks. "This affair will certainly delay effective peace measures for a while."

Mimi Hines Reaches Big Time With 'Rotsa Ruck'

Canada's zany, versatile Mimi Hines has come a long way from the house-painters' picnics on Bowen Island off Vancouver. With straightman-husband Phil Ford she gets \$7,500 a week. It started when she made Jack Paar cry. Read how they climbed to the top in this week's big Star Weekly.

Incident Could Trigger A-War Worried Canada Informs U.S.

OTTAWA (CP)—Canada has informed the United States of its concern over the American spy plane incident, External Affairs Minister Green said yesterday.

Critical

Spy flight over Russian territory was an operation "conducted by amateurs," snapped Admiral Ellis M. Zacarias, director of U.S. navy intelligence during the war.

Canada has 14 national historic parks in addition to the scenic, recreational and wild animals parks.

He added in a Commons reply to Paul Martin (L-Exeter East) that no formal protest to the U.S. will be made.

Mr. Green said there have been discussions with the U.S. over the incident.

H. W. Herridge (CCF-Kootenay West) demanded a strong protest to the U.S. for "this great blunder."

In reply to Lionel Chevrier (L-Montreal Laurier), Mr.

To U.S.

Norway Adds Protest

OSLO, Norway (AP)—Foreign Minister Halvard Lange said yesterday the Norwegian government will make representations to Washington in the case of the United States plane shot down over the Soviet Union. Moscow charges the plane was bound for Bodo air field in northern Norway.

NO KNOWLEDGE
"Norwegian civilian and military authorities have no knowledge of this matter," Lange told parliament. "Norway will take all steps to clarify the matter . . ."

"Allied planes have in certain cases been permitted to land at Bodo in connection with reconnaissance flights over the Arctic Sea, but the condition has always been that the planes must not violate the air space of any foreign power or even approach the territory of a foreign power."

In Washington, Norwegian ambassador Paul Koht asked to see Secretary of State Christian Herter to discuss the U.S. spy flight.

Green said unidentified planes have flown over the Canadian Arctic in the last two years.

However, there had been no identification of Soviet planes flying over Canada.

Mr. Green said in his original statement at the start of the House sitting that if incidents such as the shooting down of the spy plane continue, one "might trigger off a nuclear war."

He said in reply to Hazen Argue, CCF House leader, that NATO had no knowledge of the flight in question.

He said in the Commons that

the Canadian government regards the plane incident as "very serious."

The incident "points up very clearly the vital need for a disarmament agreement" the minister said.

If such incidents were to go on, one might trigger off a nuclear war.

Mr. Green added that the plane incident could not have happened with a proper inspection system under an international disarmament agreement.

He repeated Canada's offer to open its skies to inspection if Russia would permit inspection of an equivalent area of its territory.

Large Number of Canadian Yachts Assures Record Swiftsure Entry

The largest Canadian contingent in the history of the event has all but assured a record entry in the annual Swiftsure yachting classic here May 28.

Officials working on the 132-mile race from Brothie Ledge, around the lightship and back

to the Breakwater expect an entry of "between 40 and 50" yachts. Last year's record total was 41. This year's list will include from 12 to 14 yachts from Vancouver and at least one from Victoria.

The Victoria entry is the Royal Canadian Navy training

vessel, Oriole. Another Victoria yacht is believed being readied for the race, but has not been officially entered as yet.

Heaviest entry is expected to come from Seattle's two major clubs, the Seattle Yacht Club and the Corinthian Yacht Club. Yachts from Tacoma and

Olympia will also be competing.

Seattle Yacht Club entries took the two major awards last year, and both yachts are expected back for another try. The Swiftsure Trophy for the best corrected time went to the 38-foot Rebel, and Cotton Bloss-

som, 49-foot sloop owned by E. H. Halton of Seattle, took the City of Victoria Trophy as first ship across the finish line.

However the skipper of the Rebel last year will not be with her this time. Douglas Sherwood has team-

ed up with Henry Kotkins of Seattle to purchase and enter the Diamond Head, which has raced here many times. Diamond Head has never won the classic, but once took the City of Victoria Trophy. Both Sherwood and Kotkins are former owners of K-38 yachts, the same class as the Rebel.

Yachts will rendezvous in the Inner Harbor Friday, May 27, for the official welcome at 7 p.m. Mayor Percy B. Scurrah and other civic dignitaries will take part in the ceremonies, which will include the RCN sunset ceremony. The race itself starts at 9 a.m. May 28.

One Step Ahead of Exterminators

Fattest, Smartest Rats Live in Oak Bay Area

Oak Bay probably has the fattest, most well-fed rats in Greater Victoria. And these rodents are sharp operators; they know how to keep one step ahead of the exterminators.

They grow fat on food scraps tossed into backyard compost heaps by avid gardeners hoping to produce rich fertilizer.

"We find lots of rats around compost heaps," a spokesman for a city exterminating firm

said yesterday. "People who throw garbage like potato peelings and carrot sprouts on their compost heaps always have rats."

He also warned that rats are migratory. Often they will leave their home and wander around the neighborhood in search of food. A neighbor may see the rat on his property and make a complaint to municipal officials but by the time the exterminator arrives the rodent has already moved on to richer ground.

The only answer to the prob-

lem is for people to phone in or write whenever they see a rat on their premises, Oak Bay building inspector Ken Cunningham said yesterday.

Mrs. E. M. G. Mason, 1206 Beach Drive, inadvertently drew the public's attention to Oak Bay's rat problem when she boasted Saturday that she owns a 13-year-old cat which has caught between 175 and 200 rats in the neighborhood.

Mr. Cunningham processed six complaints last week. After Mrs. Mason's story appeared in Sunday's Colonist, 12 com-

plaints came into his office yesterday from around the municipality.

Mrs. Mason claims that the secret of training a cat to be a good ratter is to keep it well fed, as a hungry cat is so anxious to catch something to eat that the rodent often escapes.

But her cat Patches apparently is losing a life-long battle against vermin because several of Mrs. Mason's neighbors said they have seen rats scurrying through their yards in recent months.

Yesterday Hottest Yet

What's that? You think it was hot yesterday? Well, it was—the hottest day for this year so far.

The 71 degrees recorded at the Gonzales observatory didn't set any records for May 9, but it was a little higher than the previous high for the year of 68, recorded last month.

Shouting Argument

Mooney Stomps Out Of Council Meeting

Objects to Budget Cuts Made in His Absence

A special meeting of city council, called yesterday afternoon to formally adopt the 1960 budget and mill rate, became a shambles when Ald. Millard Mooney had a shouting argument with acting mayor Arthur Dowell, thumping his desk for emphasis, and finally gathered up his papers and stomped out of the council chamber.

He was persuaded to return by Ald. Geoffrey Edgelow and Ald. Mrs. Lily Wilson, who left the chamber to speak to him, but he voted against adopting either the budget or the mill rate. He was the only alderman who opposed them.

NOT PRESENT

Ald. Mooney was not present at the final budget-trimming meeting last Wednesday and objected yesterday to some of the items cut from the budget in his absence.

The meeting cut a total of \$68,884 from the budget to fix the mill rate at 52½ mills, up three mills from last year or about six per cent.

Ald. Mooney objected to some \$18,000 which was cut from the estimates for boulevard maintenance, and \$15,000 from public works.

THREE ATTEMPTS

He suggested that \$10,000 should be returned to the boulevard finances. Later, after the budget and mill rate had been adopted, he made three unsuccessful attempts to have the amount increased for boulevard maintenance.

Becoming aroused, Ald. Mooney asked whether the \$15,000 cut from the public works estimates would stop the improvement of roads in new subdivisions.

WANT TO KNOW

"I am going to know or I will not be here," he said. "I want to know why they are cutting \$15,000 off public works. What effect will it have on local improvements?"

"You are making a mountain out of a molehill," acting mayor Dowell said heatedly. "And I intend making a mountain out of a molehill until I am sure in my mind," Ald. Mooney shouted back.

He demanded that council hear city engineer James Garnett's explanation of what effect the \$15,000 cut would have but the demand was ignored.

OTHER WORK

Ald. Edgelow said that if Mr. Garnett feels the money has been cut from a place where it is needed, then he can recommend that money for other work should be used.

Ald. Austin Curtis pointed out that there was a \$15,000 surplus in the public works

estimates last year. \$40,000 was originally estimated as this year's costs and the \$15,000 cut as the surplus for last year was available.

Ald. Mooney asked for comptroller-treasurer Dennis Young to produce comparable figures for last year and this year but while Mr. Young was absent an argument flared up between Ald. Mooney and acting mayor Dowell.

ENOUGH TALK

"There has been enough talk on this..." the acting mayor began.

Ald. Mooney jumped to his feet and protested that the acting mayor was going to put the motion before he had Mr. Young's information.

When acting mayor Dowell pointed out Ald. Mooney had spoken several times during the discussion, Ald. Mooney, thumping his desk, gathered all his papers in his arms and started to leave the chamber.

"Come on, come on," Ald. Edgelow said, gesturing Ald. Mooney back to his seat, but he refused.

GIVE THE MOTION

"No," Ald. Mooney said. "If he can't give me the information I want... He said he is going to give the motion."

"I'll vote against it. No, I'll leave the council chamber."

"Do as you like, that is your prerogative," acting mayor Dowell said.

Ald. Mooney stalked out of the chamber a few minutes before Mr. Young returned.

"You're too late," Ald. Elmer McEwen said.

POOR CHAIRMAN

"I don't know why all this trouble comes up while I am in the chair," acting mayor Dowell commented ruefully. "I must be a poor chairman."

The meeting went smoothly after Ald. Edgelow, Ald. Mrs. Wilson and Ald. Mooney returned.

In his attempts to have \$10,000 returned to the estimate for boulevard maintenance, Ald. Mooney moved three motions. All three were defeated.

Mayor Backs Hearing Week

Mayor Percy Scurrah has endorsed Canada's second annual "Better Hearing Week," May 23 to 28, sponsored by the Canadian Hearing Society.

Purpose of the week is to encourage those who are affected to take action and avail themselves of modern methods now at their disposal. The society has been in existence for 20 years to assist the deaf and those with some degree of hearing loss to live fuller lives.

Blood Clinic This Week

Monthly Red Cross blood clinic will be held at Red Cross House, 1046 Fort, on Wednesday from 7 to 9:30 p.m. and Thursday from 1:30 to 4:30 and 7 to 9:30 p.m.

A clinic will be held Wednesday afternoon for prisoners at the William Head penitentiary.

Many Students Face Crisis

No Summer Job, No University

Construction Slowdown Disastrous

A summer employment crisis may close the doors of Victoria University to many students in September.

Dr. J. Beattie MacLean of the university faculty yesterday described the job situation as "a grave problem," and added that in all likelihood many students would be unable to return to the university next year.

BASIS FOR WORRY

Figures released by the National Employment Service give basis for his worry. They show 159 male and 83 female students at the university are still looking for work out of a total student application of 450. Dr. MacLean believes the figure may be even higher.

"A great many of our students are financing their way through university," he said. "They are largely dependent on summer jobs for that money and if they don't make enough they have to depend on loans or on bursaries and scholarships. There aren't enough of those available to come anywhere near solving the problem."

EVEN HARDER

"During the last two years fees have increased, which makes it even harder. Several students have been to my office already and told me they will simply be unable to return, as much as they want to."

It takes more than \$1,000 a year to put a student through university, and out-of-town students must also earn enough money to support themselves. All this must be made in the four months between terms.

Employment agencies report that about 25 to 35 per cent of the applicants depend on the construction industry for jobs, and the industry has experienced a slowdown. In addition, more and more plants have adopted a two-week shutdown policy for employees' holidays, eliminating the need for summer replacements.

BAD ENOUGH

The situation is bad enough for the men of the college, said Dr. MacLean, but women students face an even greater problem because their wage potential is much smaller.

"The average pay for women in the summer last year was about \$160 per month," he said. "That means they net just over \$500 or \$600 toward their fees of over \$1,000."

Most students are in debt when they graduate, he added.

Kids by the Basketfull

Kids by the basketful. These youngsters are a scant 15 hours old and look a little perplexed. Owner Bruce Gordon, 6044 Oldfield Road, says

normally there are two kids but "Suzy," the proud mamma, brought in a double header, two bucks and two does.—(Colonist photo.)

Mental Hospital

Probe to Hinge On Evidence

The attorney-general's department will study evidence given at an inquest into the death of a Saanich policeman

Water Rates

Statistics Scrutiny Certain

Esquimalt councillors didn't come right out and say they distrust statistics presented by the city in its case for a proposed 40 to 50 per cent boost in water rates.

But last night they authorized their solicitor to hire a chartered accountant, if necessary, to delve into the matter.

The Public Utilities Commission, which will consider the city's request, has ruled that Esquimalt is entitled to know the reasons for the proposed rate increases.

'Undesirable'

Little League Din Annoys Oak Bay

A group of Oak Bay residents took a healthy swing at Little League baseball last night and demanded that its present busy schedule be drastically reduced.

In a letter to Oak Bay council signed by 12 residents in the area around Windsor Park, it was stated that:

Little League baseball, either games or practices, be limited to three nights a week at Windsor Park, with no activity whatsoever on Sunday.

Those responsible for games do all in their power to mini-

imize noise and dispense with the use of amplification equipment.

Parking during game time be limited to one side of Transit Road.

"For five months of the year," the letter read, "Saturday and Sunday afternoons and evenings, there is so much noise that this section of Oak Bay is surely the most undesirable part of any residential area. Twenty or more cars line the narrow road during games, with parking on both sides, constituting a great traffic hazard."

Study of the transcript is necessary, he said, because the inquest disclosed much of the information on which a decision for a further investigation would be based.

"My information is that the coroner gave the inquest wide scope," he said.

"We are pleased at this—we don't want anything hidden."

DEANNA DER

Seen In Passing

Deanna Der picking out a summer dress in a Douglas Street store. (She is a stenographer for lawyer E. E. Pearson and lives with her parents Mrs. and Mrs. John Der. Her favorite pastimes are reading and knitting) ... Don Rossmount calling in at a friend's ... pretty junior model Janet Crane talking about a "Y" fashion show ... Maj. Taylor Spittal discussing rifle shooting ... John Olson walking through a window ... Ted McKenzie happy to see the stock car season in full swing ... Jack Hagel discussing shotguns ... Gina Lee and Yanny Lina, learning how to do the samba.

Flying Club Open House On Sunday

Victoria Flying Club will throw its hangar doors open for public inspection Sunday, at its annual "Open House."

RCN planes stationed at Patricia Bay airport will give a flying display during the afternoon and most club members will have their aircraft on display, together with the club's fleet.

Short demonstration flights will be arranged by club officers for persons interested in learning to fly.

Making Sure He's Enrolled

Giving his mother, Mrs. James Ross, 3160 Carman, a helping hand, five-year-old Paul Ross makes sure he is enrolled for kindergarten classes at Oaklands School. Registration is being made this week at seven Greater Victoria elementary schools for kindergarten classes to start in the fall.—(Colonist photo.)

Oak Bay Taxes Up 2½ Mills

Oak Bay Council last night ratified a \$1,908,634 budget that will mean a 2½-mill increase in taxes—between \$12 and \$15 for the average homeowner.

Starting with a surplus of \$50,000, council worked to pare the provisional budget but finally decided to scrap its policy of past years and budget for increased public works despite the fact that it would boost the mill rate.

"We have tried to keep the mill rate level in the past," Reeve George Murdoch said. "But if we kept putting off things like road repair we would have run into the situation where we would have to rip up some roads entirely and replace them at many times the cost. I'm well satisfied with this budget."

The 2½-mill increase covers one mill for wages and salaries, 1.07 mills for public works, and .43 of a mill for debt reduction.

"The increase of \$12 to \$15 on the average tax bill is offset by the \$22 increase in the homeowner's grant," Reeve Murdoch said. "Actually, the average homeowner is saving \$7 over last year."

Boy Locked In Trunk

A small Victoria boy had a close shave last evening—but city police made sure the experience would not be repeated.

The constables were called to 2602 Graham, where six-year-old Robbie Grattan, while playing in the back yard, had locked himself in an old trunk.

He'd been freed by neighbors when the officers arrived—but to be on the safe side the policemen took the lid off the trunk before they left.

Engaged

Mr. and Mrs. J. D. Ward, 974 Sutcliffe Road, Cordova Bay, announce the engagement of their youngest daughter, Frances Ann, to Mr. Miles Primrose, son of Mr. and Mrs. J. M. Primrose, 2608 Penrhyn Road, Cadboro Bay. The wedding will take place Saturday, June 11, at 7.30 p.m.; in St. David's-by-the-Sea Church, Cordova Bay. Rev. H. Gordon Walker will officiate. (Gibson's photo.)

Your Problems

By Ann Landers

Dear Ann Landers: Is there such a thing as a born liar? Before you answer let me tell you I think I married one.

Fifteen years ago when I married Clyde it never dawned on me that a man would lie about his age, his relatives, his education — anything and everything. I just can't understand why a person would make up lies when he has nothing to gain, unless he was born that way.

The other day was the limit. He came from work and told me he sat next to Adlai Stevenson at a drug store lunch counter. He said they talked politics for an hour and Stevenson was very impressed with his views.

Now I happen to know that Adlai Stevenson was in South America when my husband said he saw him in the drug store. Clyde would have known

it, too, if he read anything in the paper besides Ann Landers. Please answer in the column. Is there such a thing as a born liar?—MARCELLA.

Dear Marcella: There is no such thing as a "born liar." Accomplished liars get that way from practice.

No one is born with character traits, either good or bad. The sum total of what we are is the result of behavior patterns which are established early.

The inveterate liar usually feels inadequate and therefore embellishes — or invents completely — stories which will make his conversation more sensational, and himself seem more important.

You Never Answered

Dear Ann Landers: Your column is a fake. I wrote to you three weeks ago and requested that you put my answer in the paper. The letter never appeared.

The problem was about my wife. It was a lot more important than some of the teenage creep mail that you print. When I read the letter last week about the dumb kid who got Cs on his report card and tried to excuse himself by saying some people have less brains than others, I decided to write and tell you off. So consider yourself told.—FORMER READER.

Dear Former: Since you've stopped reading this column you won't see this, but I'm going to take the opportunity, all the same, to explain for the umpteenth time that it isn't possible to answer every letter in the paper.

Anyone who wants advice and isn't writing just to see if he can get his letter in print, can get a prompt reply by sending a self-addressed stamped envelope to this paper. The letters are strictly confidential. They are not opened by local newspaper employees. So—be my guest.

Can She Wear White?

Dear Ann: My daughter is 21 and she wants a formal white wedding. We can afford to do it up nicely, but we don't want to be the laughing stock of the town. I don't think she should have a white wedding for two reasons. Please tell me if I'm right.

First, she went steady with a fellow for two years and I have reason to believe they did things they had no right to do. Second, my daughter's fiancé has been married before. In fact he has a two-year-old son. Advise me, please.—M.L.

Dear M.L.: Your daughter is entitled to a white wedding if she wants one. An out-of-wedlock child disqualifies a girl, but "going steady" does not. The groom's divorce doesn't matter, either—so long as he is single.

To learn the knack of feeling comfortable with the opposite sex, read Ann Landers' book, "How To Be Dope-Back," available with your request 25 cents in coin and a large, self-addressed, stamped envelope.

(Ann Landers will be glad to help you with your problems. Send them to her in care of this newspaper enclosing a stamped, self-addressed envelope.)

you'll never use
rouge again,
once you've tried

Bloom
by DU BARRY

Why do so many women say "Bloom" instead of rouge? Because they've discovered it's the exciting new way to cheek colour! And because Bloom comes in one perfect colour to blend with every complexion! Instead of that old-fashioned "rouged" look, there's the prettiest glow you'll ever know—natural as a blush! In liquid, creme or compact form, Bloom smooths on gently, evenly, easily—bringing your beauty alive! It's hypo-allergenic, too \$1.50.

Auxiliary Gives Bouquets

Mrs. Gordon Jones, Mrs. J. W. Maxwell and Mrs. F. C. Norris were welcomed as new members of the Junior Auxiliary to the Royal Jubilee Hospital by the president, Mrs. W. A. Trenholme, at a recent meeting.

Mrs. F. G. Aldous reported 60 visits made to patients during April.

Individual spring bouquets were distributed to patients at Easter.

Graduating class of nurses were presented with gold cuff links by Mrs. R. W. Campbell at the annual Cuff Link tea.

Old Girls

Mrs. Flett Named Head

School's colors, red and white, decorated gymnasium of St. Margaret's School Friday evening for a dance in honor of the school's graduating class.

Parents' Auxiliary assisted by the Old Girls' Association hosted affair. Guests were received by Mrs. M. E. Godson, headmistress, and Rev. J. A. Roberts, president of auxiliary, and Mrs. Roberts. Guests also included members of board of directors of the school, staff and students of Grade 11. Charlie Hunt's Orchestra played for dancing and refreshments were served.

Members of graduation class include the Misses Mary Bailey, Jennifer Beeler, Mary Ann Belmont, Mary Grant, Sharon Hall, Sharon Hansen, Sara Hughes, Jennifer Lockyer, Diane MacKell, Sarah Rose, Sharon Smith, Jacqueline Thurston, Erica Tosch and Carol Turner.

LUNCHEON

A reunion luncheon was held by the Old Girls' Association in the school dining room on Saturday.

The buffet was served from tables decorated with red and white tulips. Mrs. Godson and Mrs. A. K. Love, welcomed the many guests which included the school staff, graduating class and Mrs. E. A. McGowan, representing the parent's auxiliary.

At the business meeting which followed Mrs. W. G. Flett was elected president of the new executive. Miss Dana Thompson was named vice-president and Miss Diana Warner, secretary. Mrs. A. B. Sanderson was elected treasurer.

GANGES—More than 100 people attended the dance held in Mahon Hall recently organized by the Ladies' Auxiliary, Canadian Legion. Mrs. Peter Cartwright was convener, assisted by Mrs. Dorothy Fanning and Mrs. T. J. Shariand.

FALSE TEETH

That Loosen

Need Not Embarrass

Many sources of false teeth have suffered real embarrassment because their plates dropped, slipped or wobbled at just the wrong time. Do not live in fear of this happening to you. Just sprinkle a little FASTESTIL, the alkaline (non-acid) powder, on your plates. Hold false teeth more firmly, so they feel more comfortable. Does not sour. Checks "plate odor breath." Get FASTESTIL at drug counters everywhere. ADVT.

Split Level

It's achieved in Florence, Italy, in a costume of grey shantung appliqued with imaginative gold leaves. The slim sheath has a brief bolero bodice and the ensemble is completed by a matching, short-sleeved coat. Pretty, isn't it.

CGIT Graduates Given Diplomas

Diplomas were presented by Mrs. M. Harrison to 29 CGIT graduates last night at a ceremony attended by parents and friends in First United Church.

Theme of the graduation was "Be Thou My Vision" and Miss Verne Scott was the speaker.

Mrs. W. J. McIntyre, committee chairman, welcomed guests and Miss Judy Parker read from the Scriptures. Graduation ceremony was conducted by Mrs. Stewart Robertson, a missionary on furlough from Japan.

In the graduation class, largest held in Victoria, were Elizabeth Barton, First Baptist; Evelyn Cooper, Joan Parsons, Sharon Ralph, Douglas Street Baptist; Norma Redfern, Eleanor Crouch, Barbara Hogarth, Gail Wilson, Esquimalt United; Sheila Rogers, Margaret Newman, Sandra McKeachie, Catherine Hatch, Lesley Hebden, Lynda

Coleman, Marjorie Howell, Sharon Philbrook, First United; Connie Ballam, Karen Davidson, Dianne Tribe, Gail Randall, Oak Bay United; Carol Bloomquist, Helen Green, Metropolitan United; Margaret Braithwaite, Linda Gailley, Maureen Power, Margaret Muelblok, Victoria West United, and Muriel McIvor, Virginia Morris, Yvonne Cheesman, Fairfield United.

PERSONAL MENTION

Program arranged for entertainment of wives of members of the British Columbia Dental Association, in Victoria this weekend for their annual convention, includes an opening luncheon in the Greater Victoria Art Gallery on Thursday, following registration in the Empress Hotel.

Thursday evening, wives will join their husbands in the Crystal Garden for an Hawaiian evening.

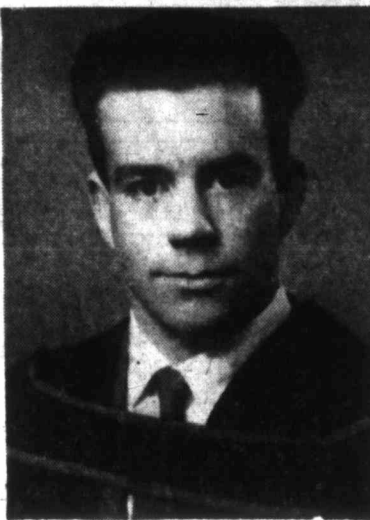

On Friday, the ladies will be given a tour by bus over the scenic Malahat drive to Duncan, where wives of dentists in that city have played a buffet luncheon in Silver Bridge Inn.

Friday evening the ladies will again join their husbands for the president's ball in the Crystal Ballroom at the Empress Hotel.

On Saturday morning an informal coffee party for feminine visitors has been arranged in the Empress Hotel. Saturday evening a farewell cocktail party is planned for dentists and their wives, also in the hotel.

Mrs. C. R. Jameson, wife of association president, is chairman in charge of arrangements. Mrs. B. Kjekstad is co-convenor, and others on the committee are Mrs. B. Horne, Mrs. W. G. Hall, Mrs. Jack Doherty, Mrs. K. L. Moisey, Mrs. T. James, Mrs. A. DaySmith, Mrs. W. G. Dempsey, Mrs. H. Turner, Mrs. G. Russell, Mrs. E. P. Gill, Mrs. W. W. McLynan, Mrs. H. Hare, Mrs. W. D. Kirstine and Mrs. Fred Corbett, all of Victoria, and Mrs. Baker and Mrs. Walkie of Duncan.

Mr. and Mrs. A. H. Smith of Isabella Point Road, Fulford, are spending a week visiting relations and friends in Haney, B.C.

June Wedding

Mr. and Mrs. James Robert McLeod, 3211 Shelbourne Street, wish to announce the engagement of their daughter, Laurine Ruth, to Mr. Laurence Sepprell Johns, son of Dr. and Mrs. T. H. Johns, 2753 Somers Drive. The wedding will take place June 25 at St. Aidan's United Church,

Rev. I. Avery officiating. Miss McLeod is a graduate of the Jubilee School of Nursing, and Mr. Johns is a graduate of UBC. Bride's attendants will be Mrs. Harold Robinson, Miss Linda Johns, Miss Barbara Courtney, and Miss Barbara Baker.

What's Cooking!

'Just Peanuts' Favorite

By LOUISE MOORE

Just peanuts—how often do you hear that belittling expression? Yet that little fellow certainly has his place in the sun although he goes through a lot to get there. He is dehydrated, desiccated, pounded, steamed, salted and even tossed to the elephants.

However, he is appreciated not only as an ingredient in many of our favorite dishes, but to mention how good he is in the form of peanut butter.

Try incorporating peanut butter in tiny tea biscuits or muffins for afternoon tea—different and delicious.

CRUNCHY PEANUT COOKIES

Cream 1 cup butter or margarine and gradually beat in 1 cup each brown and granulated sugar. Beat until light and fluffy. Beat in 1 cup peanut butter and then add 2 beaten eggs and beat thoroughly.

Add 1 tsp. vanilla. Combine 3 cups all-purpose flour, 1/2 tsp. salt, 1 tsp. baking powder

and 1 tsp. baking soda. Sift and add to first mixture.

Fold in 1/2 cup salted peanuts and 1 tbsp. cold water. Shape dough into small balls, place on grease cookie sheets and press down at right angles with tines of fork. To keep fork from sticking dip it in cold water.

Bake in moderate oven (350) 10 to 15 minutes or until a delicate golden.

One cup crunchy style peanut butter may be substituted.

ST. DAVID'S

The Women's Guild of St. David's-by-the-Sea, will meet at the home of Mrs. A. Miller, Tuesday, May 10, at 2.30 p.m.

Sociologist Says Some People Shouldn't Marry

Four types of men and women can never make marriage work, says this university instructor and marriage counselor. Are they condemned to a life of loneliness? Find out in this week's big Star Weekly. This bold article could save you or your family from tragedy.

Not Like Grandma

Modern Wife Overlooks Dirt

By GAY PAULEY

NEW YORK (UPI)—I knew there was some reason you and I were putting off the spring cleaning. But it took a bunch of motivation researchers to put the blame squarely where it belongs—on our new philosophical attitude toward dirt.

Today's homemaker, these experts found, would rather have a house with a "lived-in" look than one of spit and polish.

LOSING BATTLE

We women have decided we are fighting a losing battle against maintaining a household in the tradition of "so clean you could eat off the floor." The floor itself darkens, objects break, children spill, the walls turn drab. Wear and tear are the ultimate victors, said the researchers.

"While the value of cleanliness is a dominating American value," said their report, "... devotion to it seems increasingly modified."

Social Research Inc. did the study for Servicemaster, a Chicago firm which calls itself the nation's largest professional cleaning organization. Researchers talked to hundreds of women, both those who hold jobs outside the home and those who do not.

Here is one example of how the home situation has changed in the last 25 years, the report said.

"With the first warm rays of spring sun, grandmother would start a house-wide cleaning binge that included such chores as carrying the carpet into the backyard for its annual beating."

OFF TO PARK

"Today spring sunshine will find new spots on the sofa, dust on the carpet and smudges on the walls, but instead of urging the housewife on a cleanup campaign, a sunny day is more apt to send her to the park with the children—or shopping for a new bonnet."

The researchers credited the

new "carefree" attitude to several factors:

—The concept of the home has been changing in recent years; now it is a house to be lived in.

—Permissiveness in child-rearing means less rigidity in housekeeping.

—Increased outside activities such as club work, fund raising drives and school functions.

—Family indifference to dirt. "Mothers have to teach their families to be clean," the report said. "The families resist and are not especially admiring of her efforts to achieve a clean house unless it contributes specifically to their comfort when her private satisfaction fort. This decreases the housewife's motivation, especially to begin with."

utes specifically to their com-

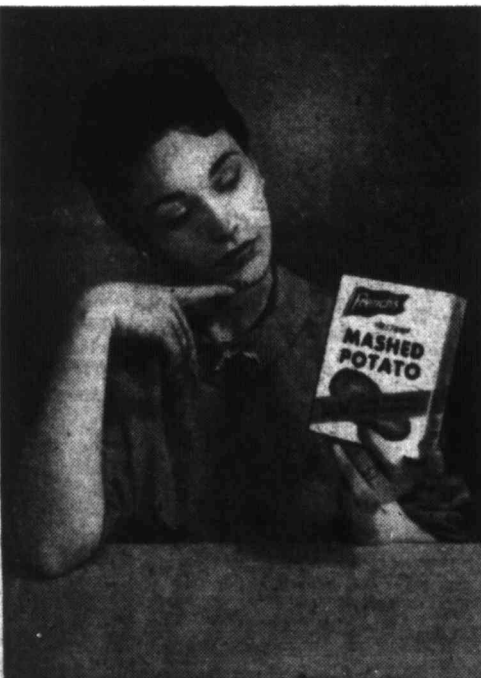

fort. This decreases the house-

wife's motivation, especially to

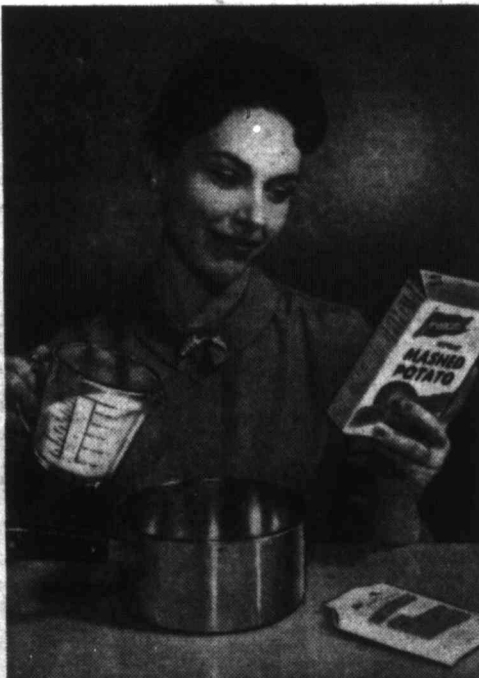

begin with."

Deluxe quality Instant Mashed Potatoes

REALLY NEW Positively! As new as the paper you're reading. The latest word in mashed potato from French's kitchens.

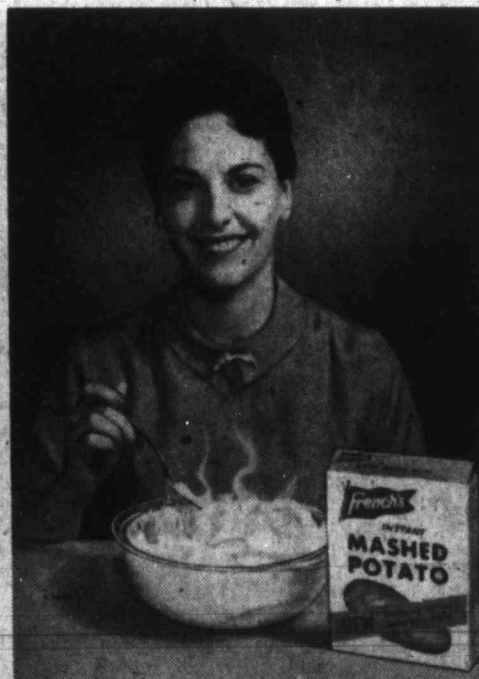

EASIER TO PREPARE You just can't miss with the new simplified recipe. Perfect every time... you'll see!

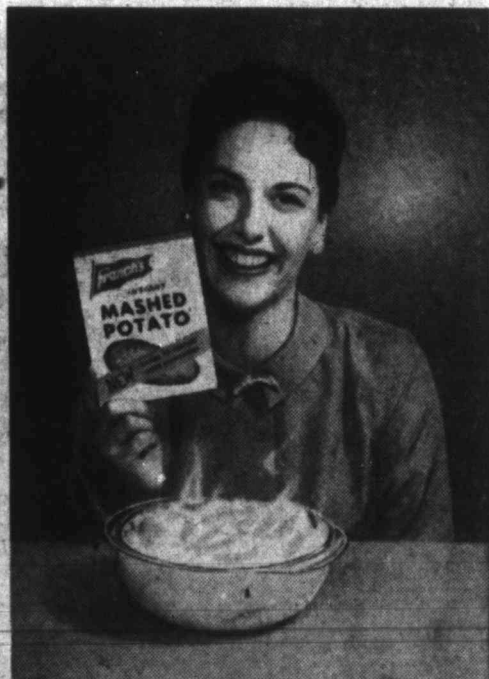

PIPING HOT You bet. No more half-warm potatoes. Now you heat milk and water together... for really hot mashed potato.

TASTIER Mmmmm... delicious. French's uses the world's finest potatoes... freshly picked and freshly packed.

FLUFFY AS A CLOUD Lighter, fluffier and whiter than any ordinary brand you may have tried. Float away!

BY GOSH—IT IS DELUXE! Wonderful flavour. No hit and miss affair... just honest-to-goodness mashed potato everytime.

New Deluxe Instant Mashed Potato

Two "Stay-Fresh" envelopes inside the package protect New French's delicious flavour.

Why waterproof and self-winding?

THE ROLEX OYSTER PERPETUAL, absolutely accurate in the famous Oyster case, infinitely self-wound by the Perpetual "rotor" mechanism, and only a masterpiece of modern horological art.

We invite you to call and inspect the Rolex Oyster Perpetual and our range of Rolex watches for ladies and gentlemen. If you cannot call, let us send you a catalogue—free, of course.

A Rolex watch is made self-winding, not to save you the trouble of winding it up, but to increase its accuracy by creating a constantly even tension on the mainspring. But, to obtain this greater accuracy, the mechanism must be protected from all harmful substances, such as water, dust, dirt and powder. The Rolex Oyster Perpetual is guaranteed waterproof; it winds itself infallibly. The robust construction of the movement means that it can be worn for 24 hours a day, no matter how strenuous your work or games. It is thus supremely accurate and dependable.

Winning Contract

By HOWARD SCHENKEN and RICHARD L. FREY

When an underdog team goes into the second half of a match (IMP scoring) on the short end of the score, you can expect aggressive bidding. Their best chance is to bid everything in sight, and hope that fortune will smile. The mathematical odds do not favor the slam bid on today's deal, but it helped the Texas team led by G. R. Nall defeat the Goren outfit in the recent Spring Nationals.

The bidding on this hand was obviously influenced by the score. South's bid of three clubs was a temporary bid that was an absolute force. He hoped to hear diamond support from his partner. When that support was forthcoming, South used Blackwood to make sure that North held two or three; then he bid for the diamond slam.

The hand was undeclared because of the favorable location of the hearts and the break in the trump suit, but declarer never had to worry about the hearts since he was able to capitalize upon the spade opening. The Jack was ducked in dummy and allowed to ride to South's queen. After cashing dummy's diamond king and queen, South came to his hand with the club ace to draw East's last trump. Next, declarer led the spade nine. West was marked with the king-jack-ten by the opening lead. He covered the nine with the ten, and North won the ace. The spade eight was returned, and declarer discarded his club three, allowing West to win with the spade king.

South was now able to trump the club return; go to dummy with the ace of hearts, and throw a heart on dummy's spade seven, making his twelve tricks without needing to take the heart finesse.

With both sides vulnerable, North deals and passes. East passes. South bids two spades (weak), and West holds: S-K 9 8; H-A-K Q 9 4; C-K J 9 4. What should West bid? Answer here tomorrow.

Auditorium Issue

School Competition 'Unfair' to Arenas

PENTICTON (CP)—Civic arenas in B.C. are being hard hit by "unfair competition" from high school auditoriums, it was contended Monday.
A report by the main land zone of the B.C. Arena Managers' Association received unanimous support from 16 cities, whose delegates are attending the annual convention here, on a suggestion that facilities put in high school auditoriums by the taxpayers.

Show Business

By Dick Williams

Ken Murray, who began his career in vaudeville, recalls some of his zany experiences on the old Keith-Albee and other circuits in his new autobiography, "Life on a Pogo Stick." The cigar-smoking comic once played a mid winter week at Shea's Hippodrome in Buffalo during a terrific snow storm.

"There was some business during the matinee, but at night nothing," he recalls. "People couldn't, or wouldn't, come out in the blinding storm."

That memorable night, just before the overture, Murray peeked through the front curtain and said there was only one man in the audience. He was seated on a centre aisle seat in the third row.

No notification to cancel the show was received from the theatre management, so Murray and the troupe went on as usual. The whole show was put

on for one man. After the performance Murray was appointed a committee of one to thank him for coming out in such miserable weather.

"Hell," said the man. "I'm the janitor just waitin' to clean up."

CHICAGO (UPI)—A pharmaceutical company announced Monday that the U.S. Food and Drug Administration has approved for long-term use a pill which can prevent pregnancy.

The firm, G. D. Searle Co. of suburban Skokie, Ill., said the pill is called Enovid and is available only on a doctor's prescription.

The pill has been on the market since 1957 as a remedy for female disorders, a company spokesman said.

He stressed that Enovid had not been, and is not now, being marketed by the company as an oral contraceptive measure. However, the FDA said in

Washington it was authorizing use of the drug over long periods of time on the basis of company assurances that tests had showed there were no harmful side effects.

HAS KNOWN

The company spokesman, Dr. L. D. van Antwerp, said the firm has known since the pill was put on the market that it could prevent pregnancy.

Only recently, van Antwerp said, tests showed that there was no danger in using the pill for an extended period of time. Previously, he said, the pill had been recommended for use only through three or four menstrual cycles.

NO INTENTION

In Washington, the FDA action was interpreted as meaning Enovid now could be sold as an oral contraceptive, even though van Antwerp said the firm had no intention of marketing it as such.

Van Antwerp said tests showing the pill was safe for an indefinite period were conducted in New York, Pittsburgh, Los Angeles, Boston, Puerto Rico and Haiti.

Dr. Brown conducted the first botanical and exploratory expeditions on Vancouver Island and in B.C. in 1864 and 1865. The association plans to acquire many of the records, sketches and diaries for presentation to the provincial archives.

Dancing Prize

Dancers of the Wynne Shaw studios, Victorians Sharon Kirk, above, Julie Banfield and Lovey Molloy have won three-month scholarships to the company class of San Francisco's Ballet Celeste, and may join the company on tour after the study.

Already with Ballet Celeste is Miss Brami Sirdar, a former Wynne Shaw student. Scholarships were offered after performance before Celeste director Merriem Lanova.

ONLY ANSWER

"The only answer to that is obvious," an interior delegate said.

"The civic arena operates under licence as a business. The high school auditorium does not. They can supply a cut rate because they are being subsidized by our tax money."

Other delegates, facing the same problem, said that when the matter is discussed at a local level the tendency is for people to say, "Why should we pay your price for the arena when we can get the auditorium for so much less?"

Disgruntled Man Destroys Beethoven Piano

BONN, Germany (UPI)—Beethoven's first composition, "The Song to Laura," was sung.

Damage was confined to the "Bonn Room" of the shrine, over which Beethoven was born in 1770.

Police arrested von Steegen and charged him with arson and endangering lives.

LOST FREEDOM

Von Steegen, posing as a tourist, ignited a bag of gasoline-soaked rags and threw it in the room to draw attention to himself.

He said he wanted the world to hear how he had been "robbed of his freedom" in 1957 when an Italian court sentenced him to four years imprisonment for fraud. He had owned a small import-export firm in Milan, Italy.

SOME SAVED

Firemen managed to remove a number of manuscripts and pieces of furniture before flames and smoke damaged them. But nothing could be done to save the piano at which Beethoven composed music that became immortal.

Kitten Killing Offered Free

Euthanasia service for unwanted newly-born kittens is being offered free by the SPCA during May and June.

Officials recommend that kittens be brought to the SPCA shelter, 111 Wilson, as soon as possible after birth, leaving one kitten with the mother.

The shelter is open from 8 a.m. to 8 p.m. daily, except Sunday.

Head Injuries

Hit by Car, Little Boy 'Improved'

A three-year-old boy who ran into the path of an oncoming car on Pandora Avenue Sunday is in "improved" condition in Royal Jubilee Hospital.

Michael De Girolamo, 633 Manchester, was knocked down outside Central Baptist Church at 10:50 a.m. while trying to reach his father's car.

He was admitted to hospital with head and facial injuries.

Three children of Mr. and Mrs. P. G. Rowe, 139 Sims, were treated for bruises and abrasions at St. Joseph's Hospital earlier on Sunday following a collision at Douglas and Wascana.

The youngsters, 2½, 1½ and two months, were injured when the car in which they were passengers was struck on the rear by another car.

OTTAWA (CP)—Trade Minister Churchill, government leader in the Commons, says that if Opposition parties co-operate the current session of parliament could conclude by the end of June. It opened Jan. 14.

Green Light Clinched It

One Victoria motorist will never stop for a green light again.

Police became suspicious Saturday when Robert A. Hunt, 200 Superior, kept stopping his car every few feet on Belleville. When he stopped for a green light at Government, then remained stationary through three changes of the traffic signal, that clinched it and they moved in.

Yesterday, Hunt was fined \$250 and had his licence suspended when he pleaded guilty to driving while impaired.

WOW! CHEVROLET DEAL DAYS ARE HERE!

Canada's best car for the best reasons! Get the big, family-sized comfort you need. Get the industry's peppiest, savingest engines and transmissions. Get a ride that rivals that of costly cars. Get all the

safety features, all the dependability and value, that only Chevrolet in its field can offer. Head for your Chevrolet dealer's NOW. Get the keys and put this superlative car through its lively paces... soon.

DEALS!
DEALS!
DEALS!

CHEVROLET DEAL DAYS
mean big savings for you!

Why? Because Chevy outsells all other cars in Canada. That means faster turnover at your Chevrolet dealer's. To celebrate, he's passing the profits along to you in the form of unbeatable deals. But for a limited time only... during Chevrolet Deal Days. Get your share of the savings RIGHT NOW.

SAVE WITH
SPRING-TIME SERVICE!

GREAT DEALS ON NEW CHEVROLET TRUCKS!

What dealer! What truck! They're rugged, reliable, revolutionary. And they'll boost your profits as no other truck can. Put one to work for YOU soon.

Yes, your Chevrolet dealer can save you time, worry and money by advising your present car right now. Guardian Maintenance servicing is the best care any car can have. Now's the time to arrange for happy summer motoring. The place?... your Chevy dealer's.

WOW!

YOU'LL GET THE BIGGEST DEALS!

There's never been a better time to buy! And there's never been a better Chevy! RIGHT NOW you can make the exciting switch to a new Chevy and save big money into the bargain. The deals are WOWS... during Chevrolet Deal Days.

WOW!

TREMENDOUS TRADES

on the best used cars in town! All makes, all models, and beauties every one of 'em. Get your money-saving trade NOW and be all set for a trouble-free, fun-filled summer.

BOOMING!

THE YEAR'S MOST EXCITING CAR VALUES!

Chevrolet is Canada's fastest-selling car... by thousands! Its looks will wow you. Its big car performance will delight you. And its practical, thrifty ways will SAVE YOU MONEY every happy mile you drive.

WOW!

THE DEALS ARE TERRIFIC!

Make the Corvair test!
Drive the best!

Acclaimed the car of the year, Corvair is big in room, pep and value but small in cost. See it... drive it... price it soon! You'll love it.

A GENERAL MOTORS VALUE

WOW!

Get your ACCESSORIES TOO!

Get added pleasure from your driving this summer with new accessories! Need a radio? Safety accessories? Comfort and luxury appointments? All can mean so much to your motoring enjoyment. Whatever accessories you want, check your dealer's outstanding selection during Chevrolet Deal Days.

More stories, pictures on spy-plane furore on Pages 2, 15 and 16.

Shock

Allies Plead Innocent

LONDON (CP) — As Russia's attitude over the American spy plane became threatening Monday, Western allies pleaded ignorance of espionage flights directed from United States bases on their soil.

Shocked reaction continued to mount in the major capitals of the world two days after the U.S. state department admitted that the U-2 jet plane shot down over Soviet territory May 1 was on a reconnaissance flight.

Among American allies, there were these developments today over the plane incident: Norway ordered an investigation by its Washington ambassador of Russian reports that the pilot was heading for a Norwegian NATO base when he was knocked down by a Soviet rocket and captured. (See Page 16.)

Japan said it would protest to the U.S. if U-2 type American jets based in Japan penetrated the air space of other countries.

Britain declined official comment on the incident, although an air ministry spokesman said American U-2 planes had visited the country.

In France, Information Minister Louis Terrenoire described the shooting down of the American plane as a "big black cloud" in the international sky.

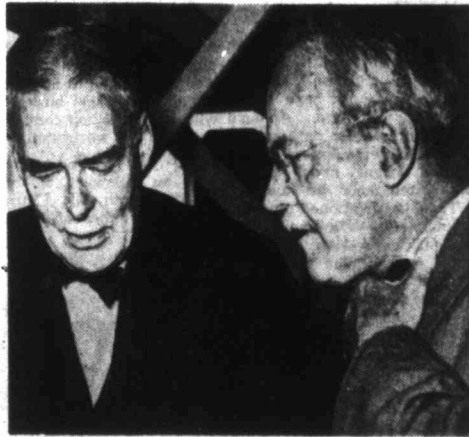

In Ottawa, External Affairs Minister Howard Green said in the House of Commons that Canada has informed the U.S. of its concern over the incident. Green said the Canadian government considered that if such incidents were to go on one "might trigger off a nuclear war." (See Page 16.)

SEE SOMETHING FISHY

Several newspapers in Britain and on the continent claimed there was something fishy about the spy plane case. (See also Page 2.)

How, they asked, did American pilot Francis G. Powers live through a parachute drop of more than 12 miles? How were the Russians able to recover an undamaged camera and film from a plane knocked down?

Continued on Page 5

"That was a rough one," U.S. espionage chief Allen Dulles (right) was heard to mutter to Secretary of State Herter as the two left a heated meeting in which they sought to explain the U.S. spy-plane incident to key members of Congress.—(AP Photofax.)

U.S. Admission

Ike Ordered Spy Flights Into Russia

By JOHN SCALI

WASHINGTON (AP)—The United States acknowledged Monday it has sent spy flights into Russia—under President Eisenhower's general orders.

The statement constituted an admission that the United States has been violating international law, intruding without permission into Soviet air space, because of the cold war.

The state department did not discourage a deduction that such flights may continue until Soviet leaders open their borders to inspection.

State Secretary Christian Herter, in making the acknowledgement, defended intelligence flights by unarmed civilian planes as necessary to guard the non-Communist world against surprise Soviet attack.

In a special statement, Herter suggested that next week's summit conference attempt to agree on safeguards which would end the threat that a country could suddenly launch a nuclear onslaught against another.

With the approval of President Eisenhower, Herter admitted that American planes have carried out "extensive aerial surveillance" of Communist territory under directives issued by the president.

"Specific missions of these unarmed civilian aircraft have not been subject to presidential authorization," Herter said.

After Soviet Premier Nikita Khrushchev reported the capture of a 30-year-old American flier deep inside Russia, the state department acknowledged an intelligence flight

'Those Who Lease Acting Against Us'

MOSCOW (Reuters)—Nikita Khrushchev warned Western ambassadors Monday that if aerial provocations continue against Russia she will shoot down the planes and aim rockets at their bases.

The Soviet premier spoke to ambassadors at a Czech Embassy reception after he made a speech promising immediate retaliation against countries allowing their territory to be used by American planes for flights over the Soviet Union.

DEADLY SERIOUS

Western reporters were not invited to the reception but diplomats said Khrushchev was in a deadly serious mood. Immediately after his speech he asked for the Pakistan and Norwegian representatives to question them about an American reconnaissance plane shot down over Russia—said by Khrushchev to be flying from Pakistan to Norway over Russia.

BLUNT WARNING

Khrushchev served this blunt warning on American allies: "Those who lease your territory are acting against us from your territory. Their country is far away from us but yours is close."

Therefore, while making sure of our distant targets, we shall also keep our sights on the nearer targets. Let them draw the necessary conclusions from this."

SECOND WARNING

Later the Soviet premier told the ambassadors—repeating a warning made earlier in the day by Soviet Defence Minister Rodion Malinovsky—that if provocations continue the Soviet Union will shoot down the

planes and aim rockets at their bases.

Khrushchev coupled his warning with another declaration that he did not want to inflame passions.

SEEKS GOOD WILL

"Let us not draw any conclusions which might aggravate relations between countries, conclusions which might in the future prevent us from creating good relations, even with the United States."

Khrushchev reviewed the shooting down May 1 of a U.S. plane over central Russia and claimed that two days after Gen. Nathan Twining, then U.S. Air Force chief of staff, was wounded and died in Moscow he sent a high-altitude flight over Russia.

Twining visited Moscow in June, 1956, to attend a Soviet air display.

ONLY AN ANIMAL

This plane, the premier said, went as far as Kiev. "What were we to do? Should we protest? I suggested that we should not. Only an animal can behave like Twining did who does its unpleasant business where it eats."

IN DILEMMA

Khrushchev said the shooting down of the plane Sunday put the U.S. state department in a situation where "they cannot admit and cannot deny it." "If anyone is preparing to fly over our territory to reconnoitre objectives and find out state secrets we shall simply shoot these planes down."

REPRISALS

"Further, if such flights are repeated, we shall take corresponding reprisal action."

A similar warning to countries which allow United States planes to use their territory for aerial espionage was given by Soviet Defence Minister Rodion Malinovsky. He spoke before 10,000 persons, including Premier Khrushchev, at a meeting in Moscow celebrating the 15th anniversary of victory over Germany.

"NO GUATEMALA"

Malinovsky warned the United States: "We are no Guatemala, no Turkey, no Pakistan, no South Korea."

"We have shot down and will shoot down any intruder who might dare to violate our air space and will take all measures which we find necessary for the defence of the inviolability of our frontiers."

"THINK WELL"

He also warned countries "who are participating in this evil doing" to "think well before it is too late."

"Our technical resources now are so developed that we can know without any error from which base these violators fly and we have the right to take any measures in such cases against bases and airfields and can deal them such a blow that nothing will be left of them."

The marshal said the "piratical incursion" by U.S. military planes of Soviet air space once again exposed "the imperialists as rabid enemies of peace and the security of peoples."

Father 'Quits' For Five Hours

Communist reporter Terry Hammond, along with scores of other Victorians, is trying to kick the cigarette habit with the help of the Colonist's recent series of articles by Arthur King Hammond, a three-pack-a-day "addict." Another addict has stepped in.

By TERRY HAMMOND

Q-Day minus 11.

Yesterday, as a form of self-imposed penalty for having forgotten not to smoke before breakfast, I stopped smoking for five hours in the afternoon.

I really could have quit completely right then but I felt it would be letting down the

Up to Smoker

Cigarette Ban Refused In U.S.

WASHINGTON (UPI)—Secretary Arthur S. Flemming yesterday snuffed out a suggestion that the government prohibit the sale of cigarettes on grounds they may cause cancer.

As he sees it, Flemming said, his responsibility is to make public all the facts about cigarette smoking and cancer. (The individual must decide for himself whether to smoke, he added.)

Cigarette Addict's Diary

readers of this series (both of them).

When I resumed smoking again I puffed my way through 11 cigarettes in rapid succession, only two more than I would have smoked during the previous five hours if I hadn't quit.

During those five smokeless hours I made a point of avoiding other members of the family as much as possible, and as a result I am happy to report that they survived with only superficial cuts and abrasions.

PITIFUL SIGHT

The looks of joy mingled with relief which they gave me when I finally broke my little fast were frankly pitiful to behold.

My eight-year-old daughter probably summed up the collective reaction best when she turned to her two-year-old sister and said, "you can breathe again kid, the old man's back on the weed."

GOOD OLD "K"

Of course one of the things which made it possible for me to quit for five hours is that this is the week we would be quitters consume the brand of cigarettes we like least.

My "Brand X" is loosely packed with a dark, granular substance which burns like

cordite. You can actually hear it burn.

Several people have been prompted to ask me if I was carrying a short-fused bomb in my pocket.

This dark substance is not tobacco at all, I suspect, but the scrapings from the ground around the tobacco plant.

TASTE TELLS

My discriminating palate detects the aroma of codfish heads, 4-126 and 2-4-D.

And if those Ontario tobacco farmers want to use a detergent motor oil in their tractors that is their business, but if they read their owner's manual they will see that it should be changed at least every 50 hours.

Rising River Drives 600 from Homes

Early Bird Potted

PORT MANN, B.C. (CP)—Tractor-operator Ralph Melenchuk told police he was punched in the face Monday by one of three men who objected to the noise of his machine.

Melenchuk, 30, said he was working on the Port Mann freeway base at 4 a.m. when the incident occurred.

TIMMINS, Ont. (CP)—

Teams of volunteers with trucks and tractors swept through adjacent Mountjoy Township Monday and evacuated nearly 600 persons from homes in the path of the flooding Mattagami River.

The rain-swollen river rising at the rate of an inch an hour, is spilling over the straining Wawatlin Falls dam which holds back a 27-mile-long man-made lake.

World Police Force Only Answer For Spy 'Nonsense', Says Chisholm

Formation of a world police force and institution of world law would end the sort of "nonsense" that sent a United States spy plane over Russia, Dr. Brock Chisholm, former head of the World Health Organization, said last night.

Such obvious attempts at spying are undoubtedly irritating and indicate a lack of trust," he said. "We are going to have to learn to trust each other."

"It is unfortunate it happened at this time, just before the coming summit conference," he added.

"A world police force is the only answer," he said. "There will be problems as long as we depend on the ridiculous and entirely mythical ability

of our armed forces to protect us."

"The only way to get around this kind of nonsense is to have world law and start people living by law and not like gangsters," Dr. Chisholm stated.

Proud Champions

Posing with their trophy are members of the team which won the ANAF fivepin bowling championship recently. From left in back row are

George Moir, Mrs. Pat Simmons and George Paul. In front are Mrs. L. Douglas and Mrs. M. Douglas.

Pirates Dropping Fast As Face Clouted Again

Pittsburgh Pirates, who rushed to the National League lead with a streak of nine straight victories, are dropping almost as fast.

They were tumbled yesterday for the fourth straight time and for the fifth time in six games when Roy Face, their peerless relief star of last year, was pounded for three runs in the ninth inning of a 7-4 loss to Los Angeles Dodgers.

Face, who won 18 in a row last season in an 18-1 per-

formance, went down for the third time in a still-winless season when Charlie Neal rapped him for a three-run homer.

But it wasn't only Face who was to blame. The Pirates made four more errors, after a six-error comedy in San Francisco Sunday, to permit two unearned runs.

Don Drysdale struck out 13 before he left under fire in the eighth but the win went to Larry Sherry, proving that he is at his best in relief.

Sherry, who had demanded a starter's job after his great world series relief pitching, has now won three in a row as a fireman after winning only once in three decisions as a starter.

Strikeout pitching also featured yesterday's only other major baseball game.

In this one, Camillo Pascual, the one-man Washington pitching staff, struck out 11 Athletics as the Senators knocked off Kansas City, 8-1. That made it 42 whiffs this season for Pascual, who allowed but three hits.

SOX TAKE LEAD

Sunday was also a day of wondrous things for the White Sox, who were a fine exception at Yankee Stadium, where the New York Yankees and Chicago White Sox, meeting for the first time this season, battled for the American League lead. The White Sox got it.

Further indicating that they are likely to battle it out for the pennant, the clubs put on a fine display before the White Sox came up with five runs in the 10th inning for an 8-3 verdict.

Gerry Staley, who has an arm younger than his 40 years, was once again the Chicago hero in a cliff-hanging ninth inning.

Trailing, 3-1, the Yankees got something started in the ninth when Mickey Mantle doubled and scored on a single by Roger Maris.

Chicago-manager Al Lopez, of course, called for Staley. Moose Skowron clipped him for a triple, Maris going to third. Elston Howard was walked intentionally and then

Staley went to work. Pinch-hitter Hec Lopez grounded to third-baseman Sam Rice, who was forced at the plate. Pinch-hitter Yogi Berra grounded to first-baseman Ted Kluszewski and another runner was forced at the plate. Then pinch-hitter Kent Hadley scratched a hit and the Yankees were even.

They got no further, and the White Sox unloaded on southpaw Fred Kipp for four singles and a three-run homer by Jim Landis.

Feature of National League action was the pitching of Mike McCormick, 21-year-old San Francisco southpaw who has now won four without a loss this season.

McCormick has given up only 27 hits in the 45 innings

he has pitched. Six of them came from the Pirates, 13-1, with a six-hitter. His biggest support came from Willie McCovey, who raised his runs-batted-in total to 27 in 21 games by driving in four teammates.

Kansas City 000 000-1 3 9
Washington 520 115-8 13 2

Pittsburgh 13 San Francisco 12
Milwaukee at Chicago, postponed, rain.

Fine Mound Work In Minor Leagues

It didn't take 13-year-old Wayne Stewart long to prove he belongs as a pitcher for IGA in the Evening Optimist Babe Ruth League.

Stewart made his first start in the Babe Ruth League on Monday night, pitching a three-hitter and striking out 10 in leading IGA to a 9-3 win over Bapco.

Meanwhile, highlight of Sunday's minor baseball schedule was the four-inning no-hitter pitched by Cliff Thorburn as Totems blanked CBRE, 14-0, in a James Bay Little League game.

Don Drysdale struck out 13 before he left under fire in the eighth but the win went to Larry Sherry, proving that he is at his best in relief.

Sherry, who had demanded a starter's job after his great world series relief pitching, has now won three in a row as a fireman after winning only once in three decisions as a starter.

Strikeout pitching also featured yesterday's only other major baseball game.

Drag Racers

Blue Law Complaint Ignored

DUNCAN — An official of the Quarter Meters Car Club from Victoria said he is "ignoring" a complaint that the club is violating the Lord's Day Observance Act.

Members of the club hope Attorney-General Robert Bonner into whose hands RCMP have placed evidence — will take the same attitude.

PROSECUTION

Police warned members of the club that evidence had been obtained Sunday and that they faced possible prosecution.

The warning came at the club's third drag races on the B.C. Cement Co. Ltd. private road near Shawnigan Lake. Club officials estimated there were 5,000 spectators. Police said maximum was 2,500.

TRAFFIC TIUP

Spectators coming and going in cars caused "the worst traffic tiup I've seen in the three years I've been here," said one policeman. Eight summonses were handed out for driving infractions.

"We're going to ignore it," said Gerald Smith, in charge of the races. "We're doing what someone should have started years ago, to keep roads off the road."

BOUGHT TICKET

In answer to the police allegation that a constable had purchased a ticket, Mr. Smith said:

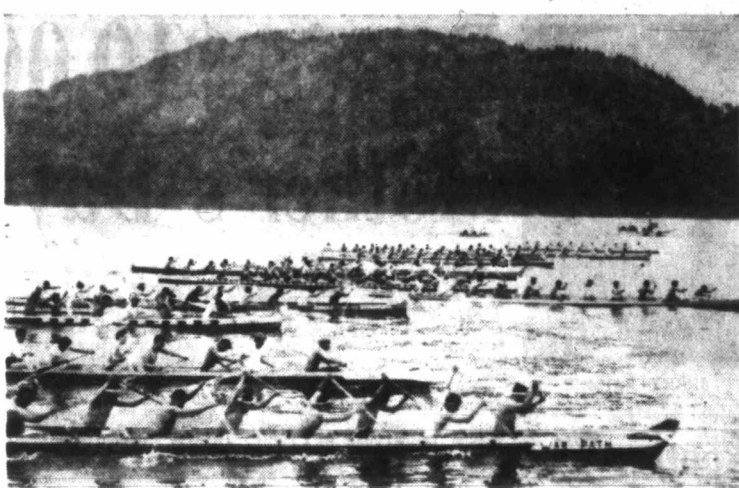

"We don't charge admission. It is on a booster pass basis with the collection going to the drag strip we hope to build some day. Nobody gets anything out of it."

So far the club has earned \$4,000. It needs \$25,000.

INTERPRETATION

"I gather this business all depends on the interpretation of the words collection and charge," said Mr. Smith.

In the club's opinion, he said, no damage was being done and that they were implementing the club's motto: Let's keep races off the high way and on a safe, legal drag strip.

Start of a race containing the largest group of 11-man canoes to race here in recent years is shown. "Mermaid" from Galiano Island won the Duncan City Trophy—(Colonist photo by Charles Thompson.)

Duncan Mayor's Proposal

Council to Paddle Its Own Canoe?

DUNCAN — Mayor Jack Dobson, who describes himself as an ardent fan of Indian sports, said the 71st Corpus Christi sports over the week-end were "the best I have ever seen."

But he complained that if Cowichan's entry in the 11-man war canoe race continues to lose, he may try for the prize with city council.

Thirteen war canoes were entered, making the biggest field in at least the last 10 years, said Norman Joe, sports chairman.

RACED TWICE

Reeve Donald Morton, of North Cowichan, also passed on compliments and added he is astounded at some of the paddlers who were able to complete the six-mile war canoe race twice.

Winner of the first prize for both races was the canoe Mermaid with a crew from Galiano Island. It won the Duncan city and the North Cowichan shields.

Second money for both entered in the baby contest.

Public Camping, Picnic Site To Be Built at Long Beach

Provincial parks department had surveyors at Long Beach last week doing preliminary work on a public camping and picnicking site. Site selected is near the old incinerator at

the west end of the beach. The incinerator, built by the army during the war, will come in handy for campers. Water is to be laid to the site and sanitary facilities installed.

Several Briefs

Cabinet Sitting In Port Alberni

PORT ALBERNI — Roads, Alberni council chambers will parks, senior citizens' housing open at 2 p.m. with presentation of briefs by the local subjects on which representation will be made to the B.C. cabinet which sits here today.

A closed session starting at 10 a.m. in which the executive will deal with orders-in-council limits and its junction with the Port Alberni cutoff on district and lunch at Klitza Lodge.

The public session in Port

Nanaimo

Police Guard Nitro

NANAIMO (CP) — An RCMP constable stood guard yesterday over a Nanaimo supermarket's safe after safecrackers loaded nitroglycerine around the door and were unable to set it off.

Money within the safe was to remain untouched until an explosives specialist from Vancouver could neutralize the nitroglycerine.

RCMP said the attempted safecracking failed because the detonating cap went off but failed to detonate the explosive.

The safecrackers left the store by a front entrance. The safe itself is embedded in concrete near a large show window.

Charge Exploded At Wrong Time

CAMPBELL RIVER — A Duncan man in Campbell River Hospital suffering from injuries to face and body received from a dynamite blast which failed to go off on schedule.

Charles King, employed at Langford Cedar Logging Co., at Butte Inlet, had placed dynamite in a stump to blow it out. One charge failed to go off, and when he went forward to investigate the charge exploded, peppering him with gravel.

A doctor was flown to the scene, and King was brought by plane to hospital here. Doctors say he is in no danger of losing his eyesight.

Accident Victim Released

VANCOUVER (CP) — Bill Money of Saturna Island, injured Saturday when the front-end loader he was operating turned over, has been discharged from Vancouver General Hospital.

The 22-year-old employee of British Columbia Lightweight Aggregates Ltd. was trapped in the cab of the machine when the accident occurred on the island, 27 miles southwest of Vancouver. It took rescuers, using a cutting torch, two hours to release him.

A West Coast Air Services plane flew Money to hospital here where he was treated for cuts, shock and chest injuries.

LAKE COWICHAN — Two cars were heavily damaged when one rolled into a ditch and another wrecked a bridge railing about midnight Saturday.

Police are still investigating the cause of the accidents from which three persons walked away uninjured.

\$350 DAMAGE In the first accident Aime Desrochers did \$350 damage to his car when it rolled 250 feet from his home at a corner on Poplar Street in the village. He was alone and going to town.

In the other accident, James Holewell demolished the north side of a 30-foot wooden bridge over Robinson Creek, just west of Mesachie Lake. He was with his wife at the time.

He said a car coming towards him forced him to hit the bridge. Debris was carried with the car nearly 200 feet. No estimate could be given, but the right side was heavily damaged.

Trio Walks Away From Bad Crash

Retire in comfort with the extra income you'll want!

Be financially independent with a Confederation Life Retirement Plan!

There's a big difference between retiring in comfort and retiring with just enough money for necessities. By acting now, you can easily arrange for a good retirement income—without risking your savings.

The Confederation Life man will help you pick a Retirement Plan that fits your needs exactly. So you can plan now at what age you want to retire and how much income you want to have.

And with a Confederation Life Retirement Plan, your dependents can be protected too. Another important point—you can register your Confederation Life Retirement Plan for income tax savings.

Save time and money with Confederation Life's new "Pay-O-Matic" Plan. Ask for details now.

New York SHULTON Toronto

Large Number of Canadian Yachts Assures Record Swiftsure Entry

The largest Canadian contingent in the history of the event has all but assured a record entry in the annual Swiftsure yachting classic here May 28.

Officials working on the 132-mile race from Brochle Ledge, around the lightship and back

to the Breakwater expect an entry of "between 40 and 50" yachts. Last year's record total was 41. This year's list will include from 12 to 14 yachts from Vancouver and at least one from Victoria.

The Victoria entry is the Royal Canadian Navy training

vessel, Oriole. Another Victoria yacht is believed being readied for the race, but has not been officially entered as yet.

Heaviest entry is expected to come from Seattle's two major clubs, the Seattle Yacht Club and the Corinthian Yacht Club. Yachts from Tacoma and

Olympia will also be competing.

Seattle Yacht Club entries took the two major awards last year, and both yachts are expected back for another try. The Swiftsure Trophy for the best corrected time went to the 38-foot Rebel, and Cotton Bloss-

om, 49-foot sloop owned by E. H. Halton of Seattle, took the City of Victoria Trophy as first ship across the finish line.

However the skipper of the Rebel last year will not be with her this time. Douglas Sherwood has team-

ed up with Henry Kotkins of Seattle to purchase and enter the Diamond Head, which has raced here many times. Diamond Head has never won the classic, but once took the City of Victoria Trophy. Both Sherwood and Kotkins are former owners of K-38 yachts, the same class as the Rebel.

Yachts will rendezvous in the Inner Harbor Friday, May 27, for the official welcome at 7 p.m. Mayor Percy B. Scurrah and other civic dignitaries will take part in the ceremonies, which will include the RCN sunset ceremony. The race itself starts at 9 a.m. May 28.

One Step Ahead of Exterminators

Fattest, Smartest Rats Live in Oak Bay Area

Oak Bay probably has the fattest, most well-fed rats in Greater Victoria. And these rodents are sharp operators; they know how to keep one step ahead of the exterminators.

They grow fat on food scraps tossed into backyard compost heaps by avid gardeners hoping to produce rich fertilizer.

"We find lots of rats around compost heaps," a spokesman for a city exterminating firm

said yesterday. "People who throw garbage like potato peelings and carrot sprouts on their compost heaps always have rats."

He also warned that rats are migratory. Often they will leave their home and wander around the neighborhood in search of food. A neighbor may see the rat on his property and make a complaint to municipal officials but by the time the exterminator arrives the rodent has already moved on to richer ground.

The only answer to the prob-

lem is for people to phone in or write whenever they see a rat on their premises. Oak Bay building inspector Ken Cunningham said yesterday.

Mrs. E. M. G. Mason, 1206 Beach Drive, inadvertently drew the public's attention to Oak Bay's rat problem when she boasted Saturday that she owns a 13-year-old cat which has caught between 175 and 200 rats in the neighborhood. Mr. Cunningham processed six complaints last week. After Mrs. Mason's story appeared in Sunday's Colonist, 12 com-

plaints came into his office yesterday from around the municipality.

Mrs. Mason claims that the secret of training a cat to be a good ratter is to keep it well fed, as a hungry cat is so anxious to catch something to eat that the rodent often escapes.

But her cat Patches apparently is losing a life-long battle against vermin because several of Mrs. Mason's neighbors said they have seen rats scurrying through their yards in recent months.

Yesterday Hottest Yet

What's that? You think it was hot yesterday? Well, it was—the hottest day for this year so far.

The 71 degrees recorded at the Gonzales observatory didn't set any records for May 9, but it was a little higher than the previous high for the year of 69, recorded last month.

Shouting Argument

Mooney Stomps Out Of Council Meeting

Objects to Budget Cuts - Made in His Absence

A special meeting of city council, called yesterday afternoon to formally adopt the 1960 budget and mill rate, became a shambles when Ald. Millard Mooney had a shouting argument with acting mayor Arthur Dowell, thumping his desk for emphasis, and finally gathered up his papers and stomped out of the council chamber.

He was persuaded to return by Ald. Geoffrey Edgelow and Ald. Mrs. Lily Wilson, who left the chamber to speak to him, but he voted against adopting either the budget or the mill rate. He was the only alderman who opposed them.

NOT PRESENT

Ald. Mooney was not present at the final budget-trimming meeting last Wednesday and objected yesterday at some of the items cut from the budget in his absence.

The meeting cut a total of \$68,884 from the budget to fix the mill rate at 52½ mills, up three mills from last year or about six per cent.

Ald. Mooney objected to some \$18,000 which was cut from the estimates for boulevard maintenance, and \$15,000 from public works.

THREE ATTEMPTS

He suggested that \$10,000 should be returned to the boulevard finances. Later, after the budget and mill rate had been adopted, he made three unsuccessful attempts to have the amount increased for boulevard maintenance.

Becoming aroused, Ald. Mooney asked whether the \$15,000 cut from the public works estimates would stop the improvement of roads in new subdivisions.

WANT TO KNOW

"I am going to know or I will not be here," he said. "I want to know why they are cutting \$15,000 off public works. What effect will it have on local improvements?"

"You are making a mountain out of a molehill," acting mayor Dowell said heatedly. "And I intend making a mountain out of a molehill until I am sure in my mind," Ald. Mooney shouted back.

He demanded that council hear city engineer James Garnett's explanation of what effect the \$15,000 cut would have but the demand was ignored.

OTHER WORK

Ald. Edgelow said that if Mr. Garnett feels the money has been cut from a place where it is needed, then he can recommend that money for other work should be used.

Ald. Austin Curtis pointed out that there was a \$15,000 surplus in the public works

estimates last year. \$40,000 was originally estimated as this year's costs and the \$15,000 cut as the surplus for last year was available.

Ald. Mooney asked for comptroller-treasurer Dennis Young to produce comparable figures for last year and this year but while Mr. Young was absent an argument flared up between Ald. Mooney and acting mayor Dowell.

ENOUGH TALK

"There has been enough talk on this..." the acting mayor began.

Ald. Mooney jumped to his feet and protested that the acting mayor was going to put the motion before he had Mr. Young's information.

When acting mayor Dowell pointed out Ald. Mooney had spoken several times during the discussion, Ald. Mooney thumping his desk, gathered all his papers in his arms and started to leave the chamber.

"Come on, come on," Ald. Edgelow said, gesturing Ald. Mooney back to his seat, but he refused.

GIVE THE MOTION

"No," Ald. Mooney said. "I can't give me the information I want... He said he is going to give the motion."

"I'll vote against it. No, I'll leave the council chamber."

"Do as you like, that is your prerogative," acting mayor Dowell said.

Ald. Mooney stalked out of the chamber a few minutes before Mr. Young returned.

"You're too late," Ald. Elmer McEwen said.

FOUR CHAIRMAN

"I don't know why all this trouble comes up while I am in the chair," acting mayor Dowell commented ruefully. "I must be a poor chairman."

The meeting went smoothly after Ald. Edgelow, Ald. Mrs. Wilson and Ald. Mooney returned.

In his attempts to have \$10,000 returned to the estimate for boulevard maintenance, Ald. Mooney moved three motions. All three were defeated.

Mayor Backs Hearing Week

Mayor Percy Scurrah has endorsed Canada's second annual "Better Hearing Week," May 23 to 28, sponsored by the Canadian Hearing Society.

Purpose of the week is to encourage those who are affected to take action and avail themselves of modern methods now at their disposal. The society has been in existence for 20 years to assist the deaf and those with some degree of hearing loss to live fuller lives.

Blood Clinic This Week

Monthly Red Cross blood clinic will be held at Red Cross House, 1044 Fort, on Wednesday from 7 to 9:30 p.m. and Thursday from 1:30 to 4:30 and 7 to 9:30 p.m.

A clinic will be held Wednesday afternoon for prisoners at the William Head penitentiary.

Many Students Face Crisis

No Summer Job, No University

Kids by the Basketful

Kids by the basketful. These youngsters are a scant 15 hours old and look a little perplexed. Owner Bruce Gordon, 6044 Oldfield Road, says

normally there are two kids but "Suzy," the proud mamma, brought in a double header, two bucks and two does.—(Colonist photo.)

Around the Island

Closed Circuit TV Net Sought for Duncan Area

DUNCAN—City council is considering two applications it has received for closed circuit television here.

One was received verbally last night from Ivan Hollway, president and owner of Fort Alberni Video Services Ltd., who asked for a franchise to pipe seven channels.

A large piece of the limited company here would be owned by a "well-known" local businessman, said Mr. Hollway. Cost would be \$125 connection fee and \$4 a month rent, he said.

DUNCAN—Postmaster Robert Corney has asked city council to reconsider its intention to move the snail-mail curbside mailbox.

He claims it is "useful, but a still greater use could be made if no parking in the area was enforced."

Council indicated it will reconsider the usefulness of the box, but Mayor Jack Dobson and Ald. James Saunders indicated another site would be more useful than in front of the federal building.

NANAIMO—Sunday bowling will continue here as far as alley operator Shelby M. Saunders is concerned.

A warning last week that police would seek evidence to close the recreation alleys because of Sunday bowling did not materialize.

Mr. Saunders had been warned the Lord's Day Alliance would seek evidence to prosecute the 30-lane establishment in a test case.

PORT ALBERNI—Richard Ogmundson, Grade 9, won first prize in the essay contest conducted at the high school under auspices of the local National Employment Service office in a project to emphasize the value of education.

Over 500 ADHS students competed for three prizes. Second prize, a cheque for \$7.50 went to Donald Minnigan, Grade 8, and third prize, \$5 to Vicky Boutiller, Grade 7.

Other News See Page 12

PORT ALBERNI

Sixteen students in caps and gowns received convocation certificates at the annual graduation exercises of Smith Memorial School held Saturday evening in Notre Dame parish hall.

A highlight of the impressive ceremony was the presentation of special prizes and awards to leading members of the class.

Sharon Beverly Wale, class valedictorian, received a bronze medal for the leading score of the school in recent exams. The Smith Memorial team, consisting of Miss Wale, Frances Otte and Louise Joseph, placed fifth out of 79 schools, while Miss Wale's individual score was sixth highest among 888 students.

Other awards went to Gertrude Duquenne, religion; Sharon Wale, class excellence; JoAnn Lynn, courtesy and co-operation; Philip McKinnon, English; Maria Bonthius, history.

Special awards were presented to Peggy Blake, Ellen Tromba, Gabriel Jack, Arlene Leblanc, Sharon Wenezenki, Gnette Paquette, Patricia Bosley, Rita Legros, Norman McKinnon, Richard Herkel, Joan van der Hoeven, and Carol McCarthy.

Members of the graduating class are Maria Boudina Bonthius, April Diane Corbett, Gertrude Louise Duquette, Karen Diane Durante, Alvin Frank, Irge, Louis Oscar Joseph, George Emery Kirzinger, Malcolm Krause, Jo-sept Laminaki, JoAnn Bernice Lynn, Mical Anthony McGladery, Philip John McKinnon, Eric Netzer, Frances Joanne Otte, Sally Alberta Rourke, Sharon Beverly Wale.

DUNCAN—In traffic court yesterday John Warren of Mill Bay was fined \$20 for speeding at 70 in a 50-mile zone.

He also pleaded guilty to a charge of failing to stop at a red light and was fined \$15.

In police court, John W. Kirk, no fixed address, was sentenced to 30 days in Okalla on a charge of vagrancy after being found in brush off Miller Road.

Lyla Alexander of Chemainus was fined \$10 when she pleaded guilty of being drunk off the reserve. Police arrested her after she was found in the city parking lot.

Hangars Open

Victoria Flying Club will throw its hangar doors open for public inspection Sunday, at its annual "Open House."

RCN planes stationed at Patricia Bay airport will give a flying display during the afternoon and most club members will have their aircraft on display, together with the club's fleet.

Short demonstration flights will be arranged by club officers for persons interested in learning to fly.

New Deal Ahead On RCMP Costs

OTTAWA (UPI)—The conference of provincial attorneys-general and federal Justice Minister Fulton decided Monday to set up a committee to study a federal proposal for a new basis of the division of the costs of maintaining RCMP in the provinces.

Construction Slowdown Disastrous

A summer employment crisis may close the doors of Victoria University to many students in September.

Dr. J. Beattie MacLean of the university faculty yesterday described the job situation as "a grave problem," and added that in all likelihood many students would be unable to return to the university next year.

BASIS FOR WORRY

Figures released by the National Employment Service give basis for his worry. They show 159 male and 83 female students at the university are still looking for work out of a total student application of 450. Dr. MacLean believes the figure may be even higher.

"A great many of our students are financing their way through university," he said. "They are largely dependent on summer jobs for that money and if they don't make enough they have to depend on loans or on bursaries and scholarships. There aren't enough of those available to come anywhere near solving the problem."

EVEN HARDER

"During the last two years fees have increased, which makes it even harder. Several students have been to my office already and told me they will simply be unable to return, as much as they want to."

It takes more than \$1,000 a year to put a student through university, and out-of-town students must also earn enough money to support themselves. All this must be made in the four months between terms.

Employment agencies report that about 25 to 35 per cent of the applicants depend on the construction industry for jobs, and the industry has experienced a slowdown. In addition, more and more plants have adopted a two-week shutdown policy for employees' holidays, eliminating the need for summer replacements.

BAD ENOUGH

The situation is bad enough for the men of the college, said Dr. MacLean, but women students face an even greater problem because their wage potential is much smaller.

"The average pay for women in the summer last year was about \$160 per month," he said. "That means they net just over \$500 or \$600 toward their fees of over \$1,000."

"This has to be supplemented through loans, which must be paid off through the next year's wages. That means they have to make more money the following year, to pay off the loan and pay fees for that year."

Most students are in debt when they graduate, he added.

QUALICUM BEACH—Tom Tryon was elected president of the newly-formed Parksville-Qualicum Duplicate Bridge Club at a recent general meeting.

Others elected were: secretary, Mrs. Edith Brennan; treasurer, Mrs. M. Peterson; social convener, Mrs. Marlon Roscoe; publicity, Mrs. Doreen Maurer; tournament director, Paul Smith. Application has been made for affiliation with the American Contract Bridge League. Games will be held at the Qualicum Beach Community Hall annex.

Making Sure He's Enrolled

Giving his mother, Mrs. James Ross, 3160 Carman, a helping hand, five-year-old Paul Ross makes sure he is enrolled for kindergarten classes at Oaklands School. Registration is being made this week at seven Greater Victoria elementary schools for kindergarten classes to start in the fall.—(Colonist photo.)

\$500,000 Job

Big Sewer Program Boon to Nanaimo

NANAIMO—A \$500,000 sewer connection program should help to alleviate a chronic unemployment situation here.

City council was informed last night of the situation by its representative on the winter works program, Ald. Hon Parker said the committee had done a job equal to that of any in the province.

Ald. Doug Greer told city council the new sewer connection program would help the situation which aldermen said was no longer a seasonal condition.

The council will draft a resolution to send to federal and provincial labor departments concerning the condition.

Ald. Parker said the most men employed under winter works projects at one time

was 146. He said this was the organization's capacity.

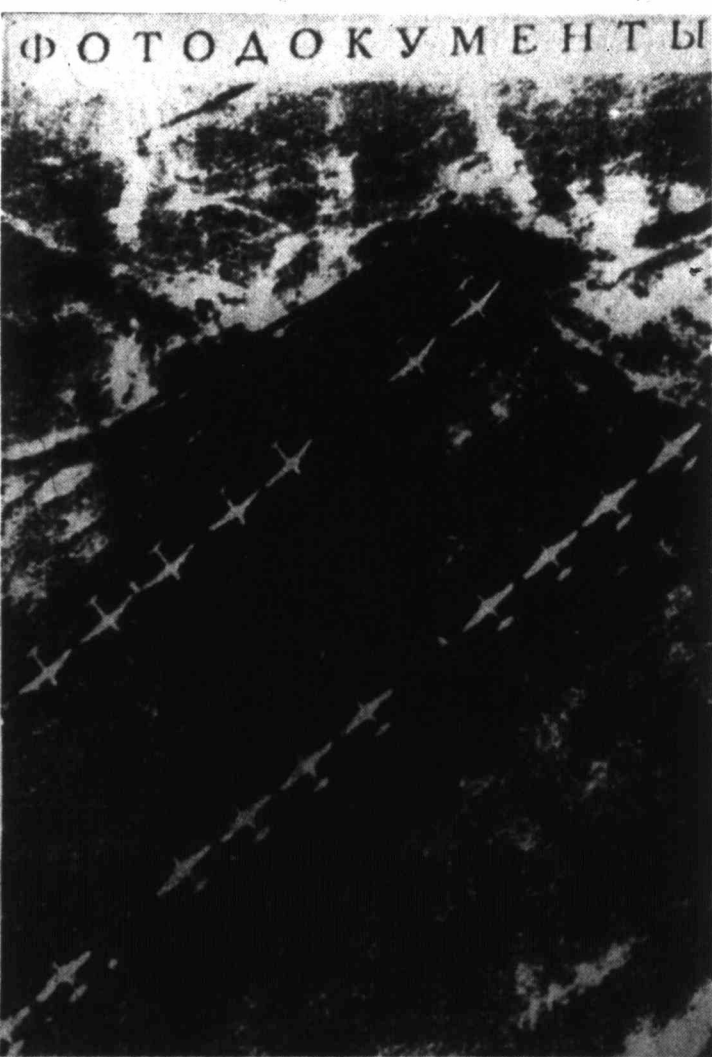

Under the new sewer system residents will pay \$110 for property connections if paid immediately, if paid over a six-year period will be \$20 down and \$20 for the following six years.

The police commission will ask RCMP to try and provide more patrols for the Westwood Lake area. A letter from Branch 10, Canadian Legion, who sponsor a resort area, said vandalism had reached a point where it was hindering progress.

In the past year the concession stand has been broken into on five separate occasions.

Council moved quickly on a boat launching shortage here and city works crews are already improving facilities.

WE'LL BLAST YOUR BASES NIKITA TELLS U.S. ALLIES

This is one of photos Reds charge it was shot down 1,400 miles inside Russia.—(AP Photofax.)

More stories, pictures on spy-plane furore on Pages 2, 15 and 16.

Shock

Allies Plead Innocent

LONDON (CP) — As Russia's attitude over the American spy plane became threatening Monday, Western allies pleaded ignorance of espionage flights directed from United States bases on their soil.

Shocked reaction continued to mount in the major capitals of the world two days after the U.S. state department admitted that the U-2 jet plane shot down over Soviet territory May 1 was on a reconnaissance flight.

Among American allies, there were these developments over the plane incident:

● Norway ordered an investigation by its Washington ambassador of Russian reports that the pilot was heading for a Norwegian NATO base when he was knocked down by a Soviet rocket and captured. (See Page 16.)

● Japan said it would protest to the U.S. if U-2 type American jets based in Japan penetrated the air space of other countries.

● Britain declined official comment on the incident, although an air ministry spokesman said American U-2 planes had visited the country.

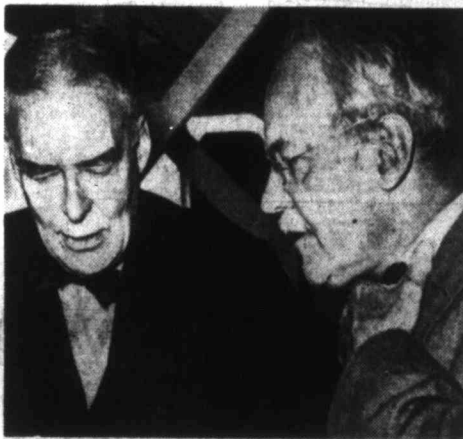

● In France, Information Minister Louis Terrenoire described the shooting down of the American plane as a "big black cloud" in the international sky.

● In Ottawa, External Affairs Minister Howard Green said in the House of Commons that Canada has informed the U.S. of its concern over the incident. Green said the Canadian government considered that if such incidents were to go on one "might trigger off a nuclear war." (See Page 16.)

Several newspapers in Britain and on the continent claimed there was something fishy about the spy plane case. (See also Page 2.)

How, they asked, did American pilot Francis G. Powers live through a parachute drop of more than 12 miles? How were the Russians able to recover an undamaged camera and film from a plane knocked down?

Continued on Page 2

"That was a rough one," U.S. espionage chief Allen Dulles (right) was heard to mutter to Secretary of State Herter as the two left a heated meeting in which they sought to explain the U.S. spy-plane incident to key members of Congress.—(AP Photofax.)

U.S. Admission

Ike Ordered Spy Flights Into Russia

By JOHN SCALI

WASHINGTON (AP)—The United States acknowledged Monday it has sent spy flights into Russia under President Eisenhower's general orders.

The statement constituted an admission that the United States has been violating international law, intruding without permission into Soviet air space, because of the cold war.

The state department did not discourage a deduction that such flights may continue until Soviet leaders open their borders to inspection.

State Secretary Christian Herter, in making the acknowledgement, defended intelligence flights by unnamed civilian planes as necessary to guard the non-Communist world against surprise Soviet attack.

In a special statement, Herter suggested that next week's summit conference attempt to agree on safeguards which would end the threat that a country could suddenly launch a nuclear onslaught against another.

With the approval of President Eisenhower, Herter admitted that American planes have carried out "extensive aerial surveillance" of Communist territory under directives issued by the president.

"Specific missions of these unarmed civilian aircraft have not been subject to presidential authorization," Herter said. After Soviet Premier Nikita Khrushchev reported the capture of a 30-year-old American flier deep inside Russia, the state department acknowledged an intelligence flight.

Russia Sounds Double Warning

MOSCOW (Reuters)—Nikita Khrushchev warned Western ambassadors Monday that if aerial provocations continue against Russia she will shoot down the planes and aim rockets at their bases.

The Soviet premier spoke to ambassadors at a Czech Embassy reception after he made a speech promising immediate retaliation against countries allowing their territory to be used by American planes for flights over the Soviet Union.

Western reporters were not invited to the reception but diplomats said Khrushchev was in a deadly serious mood.

Immediately after his speech he asked for the Pakistan and Norwegian representatives to question them about an American reconnaissance plane shot down over Russia—said by Khrushchev to be flying from Pakistan to Norway over Russia.

BLUNT WARNING
Khrushchev served this blunt warning on American allies:

"Those who leave your territory are acting against us from your territory. Their country is far away from us but yours is close."

Therefore, while making sure of our distant targets, we shall also keep our sights on the nearer targets. Let them draw the necessary conclusions from this."

SECOND WARNING
Later the Soviet premier told the ambassadors—repeating a warning made earlier in the day by Soviet Defence Minister Rodion Malinovsky—that if provocations continue the Soviet Union will shoot down the

planes and aim rockets at bases in the offending countries.

Khrushchev coupled his warning with another declaration that he did not want to inflame passions.

SEEKS GOOD WILL

"Let us not draw any conclusions which might aggravate relations between countries, conclusions which might in the future prevent us from creating good relations, even with the United States."

Khrushchev reviewed the shooting down May 1 of a U.S. plane over central Russia and claimed that two days after Gen. Nathan Twining, then U.S. Air Force chief of staff, was wounded and died in Moscow he sent a high-altitude flight over Russia.

Twining visited Moscow in June, 1956, to attend a Soviet air display.

ONLY AN ANIMAL

This plane, the premier said, went as far as Kiev.

"What were we to do? Should we protest? I suggested that we should not. Only an animal can behave like Twining did who does its unpleasant business where it eats."

Khrushchev said the shooting down of the plane Sunday put the U.S. state department in a situation where "they cannot admit and cannot deny it."

"If anyone is preparing to fly over our territory to reconnoitre objectives and find out state secrets we shall simply shoot these planes down."

REPRISALS

"Further, if such flights are repeated, we shall take corresponding reprisal action."

A similar warning to countries which allow United States planes to use their territory for aerial espionage was given by Malinovsky. He spoke before 10,000 persons, including Premier Khrushchev, at a meeting in Moscow celebrating the 15th anniversary of victory over Germany.

"NO GUATEMALA"

Malinovsky warned the United States: "We are no Guatemala, no Turkey, no Pakistan, no South Korea."

"We have shot down and will shoot down any intruder who might dare to violate our air space and will take all measures which we find necessary for the defence of the inviolability of our frontiers."

"THINK WELL"

He also warned countries "who are participating in this evil doing" to "think well before it is too late."

"Our technical resources now are so developed that we can know without any error from which base these violators fly and we have the right to take any measures in such cases against bases and airfields and can deal them such a blow that nothing will be left of them."

The marshal said the "piratical incursion" by U.S. military planes of Soviet air space once again exposed "the imperialists as rabid enemies of peace and the security of peoples."

Father 'Quits' For Five Hours

Colonist reporter Terry Hammond, is trying to kick the cigaret habit with the help of the Colonist's recent series of articles by Arthur King. Hammond, a "lame duck" as he is called, describes another step in his withdrawal.

By TERRY HAMMOND
Q-Day minus 11.

Yesterday, as a form of self-imposed penalty for having forgotten not to smoke before breakfast, I stopped smoking for five hours in the afternoon.

I really could have quit completely right then but I felt it would be letting down the

Cigaret Addict's Diary

readers of this series (both of them).

When I resumed smoking again I puffed my way through 11 cigarettes in rapid succession, only two more than I would have smoked during the previous five hours if I hadn't quit.

During those five smokeless hours I made a point of avoiding other members of the family as much as possible, and as a result I am happy to report that they survived with only superficial cuts and abrasions.

FEETFUL SIGHT

The looks of joy, mingled with relief, which they gave me when I finally broke my little fast were frankly pitiful to behold.

My eight-year-old daughter probably summed up the defective reaction best when she turned to her two-year-old sister and said, "you can breathe again kid, the old man's back on the weed."

GOOD OLD "X"

Of course one of the things which made it possible for me to quit for five hours is that this is the week we would-be quitters consume the brand of cigarettes we like least.

My "Brand X" is loosely packed with a dark, granular substance which burns like

cordite. You can actually hear it burn.

Several people have been prompted to ask me if I was carrying a short-fused bomb in my pocket.

This dark substance is not tobacco at all, I suspect, but the scrapings from the ground around the tobacco plant.

TASTE TELLS

My discriminating palate detects the aroma of codfish heads, 4-12-6 and 2-4-D.

And if those Ontario tobacco farmers want to use a deterrent motor oil in their tractors that is their business, but if they read their owner's manual they will see that it should be changed at least every 50 hours.

Rising River Drives 600 from Homes

Early Bird Potted

PORT MANN, B.C. (CP)—Tractor-operator Ralph Melenchuk told police he was punched in the face Monday by one of three men who objected to the noise of his machine.

Melenchuk, 30, said he was working on the Port Mann freeway base at 4 a.m. when the incident occurred.

TIMMINS, Ont. (CP)—Teams of volunteers with trucks and tractors swept through adjacent Mountjoy Township Monday and evacuated nearly 600 persons from homes in the path of the flooding Mattagami River.

The rain-swollen river, rising at the rate of an inch an hour, is spilling over the straining Wawatin Falls dam which holds back a 27-mile-long man-made lake.

World Police Force Only Answer For Spy 'Nonsense,' Says Chisholm

Formation of a world police force and institution of world law would end the sort of "nonsense" that sent a United States spy plane over Russia, Dr. Brock Chisholm, former head of the World Health Organization, said last night.

Such obvious attempts at spying are undoubtedly irritating and indicate a lack of trust," he said. "We are going to have to learn to trust each other."

"It is unfortunate it hap-

pened at this time, just before the coming summit conference," he added.

"A world police force is the only answer," he said. "There will be problems as long as we depend on the ridiculous and entirely mythical ability

of our armed forces to protect us."

"The only way to get around this kind of nonsense is to have world law and start people living by law and not like gangsters," Dr. Chisholm stated.

Up to Smoker

Cigaret Ban Refused In U.S.

WASHINGTON (UPI)—Health Secretary Flemming yesterday snuffed out a suggestion that the government prohibit the sale of cigarettes on grounds they may cause cancer.

As he sees it, Flemming said, his responsibility is to make public all the facts about cigaret smoking and cancer. The individual must decide for himself whether to smoke, he added.
